President Ropkey addressed the members of the Council thanking them for his election with the following words:

Fellow Councilmen and Friends:

While I have made no effort to again be elected President of the Common Council of Indianapolis, I would indeed be void of the finer sensibilities were I not to realize the full significance and appreciate what it means to have the opportunity to serve as President for the third term.

Perhaps others have been thus favored, and if so, it is nevertheless a signal honor.

I am well aware I have not been made President again because of any particular outstanding ability to preside, but rather because of the good fellowship which now, and which has, characterized this particular body of men for the past two years.

In the future I shall do what I can to promote and contribute to, and maintain this very splendid spirit. This can be done—in part—by all of us doing our duty as we see it.

It is not expected that we should at all times agree, but what we do, should always be prompted by honest motives, which, I believe, has been characteristic of this Council in the past.

I again thank you.

President Ropkey announced the reappointment of all Standing Committees which are as follows, to-wit:

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS, INDIANA:

Section 1. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925, be amended by amending Section E-603 entitled, "Method for Determining the Size of Warm Air Pipes, Wall Stacks and Furnaces for use in Grade C and D Buildings" to read as follows:

"SEC. E-603. METHOD FOR DETERMINING THE SIZE OF WARM AIR PIPES, WALL STACKS AND FURNACES.

The following method shall be used for calculating required sizes of warm air pipes, wall stacks and furnaces.

A.—SIZES OF BASEMENT WARM AIR PIPES.

a. **EACH FIRST FLOOR ROOM.**

Divide square feet of exposed glass by 12,

Divide square feet of net exposed wall, ceiling or floor by factors in Table A.

Divide cubic contents by 800, (Note 6)

Add together the above and multiply by 9.

The result is the area of the basement pipe in square inches.

Stated as an equation, this is,

$$\left\{ \begin{array}{l} \text{The sum of:} \\ \text{Glass (sq. ft.) (Note 1) } \div 12 \\ \text{Net Wall (sq. ft.) (Note 2) } \div (\text{Factor in} \\ \text{Table A}) \\ \text{Cu. Contents (Note 6) } \div 800 \end{array} \right\} \times 9 = \text{Area of Basement Pipe}$$

b. EACH SECOND FLOOR ROOM

Divide square feet of exposed glass by 12,

Divide square feet of net exposed wall, ceiling or floor by factors in Table A.

Divide cubic contents by 800, (Note 6)

Add together the above and multiply by 6.

The result is the area of the basement pipe in square inches. (See Sec. E-606 c)

Stated as an equation, this is,

$$\left\{ \begin{array}{l} \text{The sum of:} \\ \text{Glass (sq. ft.) (Note 1) } \div 12 \\ \text{Net Wall (sq. ft.) (Note 2) } \div (\text{Factor in} \\ \text{Table A}) \\ \text{Cu. Contents (Note 6) } \div 800 \end{array} \right\} \times 6 = \text{Area of Basement Pipe}$$

c. EACH THIRD FLOOR ROOM

Divide square feet of exposed glass by 12,

Divide square feet of net exposed wall, ceiling or floor by factors in Table A.

Divide cubic contents by 800, (Note 6)

Add together the above and multiply by 5.

The result is the area of the basement pipe in square inches.

Stated as an equation, this is,

$$\left\{ \begin{array}{l} \text{The sum of:} \\ \text{Glass (sq. ft.) (Note 1) } \div 12 \\ \text{Net Wall (sq. ft.) (Note 2) } \div (\text{Factor in} \\ \text{Table A}) \\ \text{Cu. Contents (Note 6) } \div 800 \end{array} \right\} \times 5 = \text{Area of Basement Pipe}$$

d. BASIS OF WORKING RULES FOR PIPES

These formulae are for 70 degrees temperature difference (outside temperature zero, inside temperature 70 degrees Fahrenheit). When temperature difference is more than 70 degrees, add 1½ % per degree above 70 degrees to final figures. When temperature difference is less than 70 degrees, deduct 1½ % per degree below 70 degrees from final figures.

The value as given in Table A for use in the working rules are derived as follows:

EXAMPLE:

The unit of calculation adopted for this is the equivalent of 1000 b. t. u. transmitted. Any other number than 1000 might be selected if desired and the result would be the same. Calculations are based on the commonly accepted data for heat loss through different types of walls. Thus, the factor 60, Item No.1, Table A, is obtained in the following manner: The rate of heat transmission through a wall consisting of siding, paper, sheathing, studding, lath and plaster, is 0.238 b. t. u. per square foot, per hour, per degree difference between room and outside temperatures. At 70 degrees inside and zero outside, one square foot of wall will transmit $0.238 \times 70 = 16.66$ b. t. u. per hour. 1000 b. t. u. will then be lost through $1000 \div 16.66 = 60$ square feet of wall. Since it is found from experiment that one square inch of first floor leader pipe delivers 111 b. t. u., it will require $1000 \div 111 = 9$ square inches to compensate for the loss through 60 square feet of wall. From this we derive the formula:

$$\frac{W}{60} \times 9 = \text{Area of first floor leader}$$

Substituting 167 for the second floor and 200 for the third floor in place of 111, gives the factors 6 and 5 respectively.

Other values in Table A for the different types of walls were obtained by substitution of proper coefficient of heat transmission instead of 0.238 in the above formula.

Co-efficients used in Table A taken from A. S. H. & V. E. Guide 1929.

EXPLANATORY NOTES

Note 1. In obtaining glass surface use full casement openings. An outside door is figured as glass.

Note 2. To obtain net outside wall multiply height by width and deduct all windows and outside doors, as obtained in Note 1. For all rooms with attic spaces immediately above, full ceiling areas shall be taken into account, using table A. Floors over unheated spaces shall be taken into account, using Table A. For walls and doors between heated and unheated spaces—use 50% of similar outside exposure.

Note 3. For rooms having unusual exposure, (ordinarily north, northeast and northwest,) add 15% to the calculated pipe area.

Note 4. Use no basement warm air pipe less than 8 inches in diameter. If a basement warm air pipe figures not to exceed 10% greater area than any standard commercial size then the nearest commercial size shall be used, provided however, that the total leader pipe area for each floor shall in no case be less than the total calculated requirements.

Note 5. It is understood in using the above values for determining basement warm air pipe areas, that these pipes should be run comparatively straight and that they should not be over 12 feet in length. Sharp turns and long pipes should have extra capacity. When warm air pipes exceed 12 ft. in length or have more than two 90 degree turns, the next larger commercial size pipe must be used.

Note 6. The value of 800 (used in cubic contents) is for an estimated air change of one room volume per hour. To provide for 1½ room volume use the figure 600. For 2 room volumes use the figure 400.

B—SIZE OF WALL STACKS**a. FIRST FLOOR ROOMS**

All first floor fittings and connections shall maintain a free area equal to the round basement pipes leading to them.

b. SECOND FLOOR ROOMS

Not less than 70% of calculated basement pipe area as determined in (b).

c. THIRD FLOOR ROOMS

Not less than 70% of calculated basement pipe area as determined in (c).

d. Where two or more rooms are heated from the same basement pipe and stack, the area of such basement pipe and stack shall equal the combined areas."

Section 2. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925 be amended by amending Section E-604 entitled, "Transition, Fittings and Stacks" to read as follows:

"SEC. E-604. TRANSITION, FITTINGS AND STACKS.

a. Transition from warm air pipes to stacks or register heads shall be made with a well designed elbow or boot.

b. Rectangular warm air pipes shall in no case have the greater inside dimension more than three and one-half ($3\frac{1}{2}$) times the lesser inside dimension. (This does not apply to wall stacks.)

c. No stack shall be less than seventy percent (70%) of the basement warm air pipe area."

Section 3. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925 be amended by amending Section E-605 entitled "Method of Determining Size of Registers" to read as follows:

"SEC. E-605. METHOD OF DETERMINING SIZE OF REGISTERS.

All registers shall have a free area at least equal to the area of the basement pipes leading to them, and shall be of the approximate width of the stacks or fittings to which they are attached."

Section 4. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925 be amended by amending Section E-606 entitled, "Method of Determining Size of Furnace" to read as follows:

"SEC. E-606. METHOD OF DETERMINING SIZE OF FURNACE.

a. Add together the leader pipe areas (expressed in square inches) necessary for heating the building, as determined by the foregoing calculated requirements, (Sec. E-603) and install a furnace of sufficient rated capacity.

b. Every installer of warm air furnaces in the City of Indianapolis shall file with the Combustion Engineer a list of certified measurements for each size and style of furnace supplied or installed by him. Said certification shall give identification marking of each style and size, heating surface, grate area, ratio of heating surface to grate area and heating capacity. The above rating shall be figured according to the following formula:

FURNACE RATING FORMULA

$$L = 1.75 G [1 + 0.02 (R - 20)]$$

L = square inches of warm air pipe connected to the furnace as calculated.

G = grate area in square inches; the area of the fire pot at the grate level, its most restricted area.

R = ratio of heating surface area to grate area;

1.75 = a constant based upon the results obtained by Research on a furnace having 20 square feet of heating surface for each square foot of grate.

The above equation is based on the:

Efficiency of heater 0.55; combustion rate of 7.5 pounds of coal per sq. ft. of grate per hour; calorific value of fuel 12,790 B. t. u. per lb.; percentage of heat available at register 0.75; average B. t. u. delivering value of one sq. inch of leader pipe area, assuming half of the heat is sent to each floor, 136; and on an operating temperature of 175 deg. F. at the register.

The formula allows 1.75 square inches of warm air pipe area for each square inch of grate area, for the furnace having a ratio of heating surface to grate surface of 20 to 1. For furnaces having other ratios of heating surfaces to grate surface, it adds 2 per cent or deducts 2 per cent for each unit above or below a ratio of 20.

APPLICATION:

	No. 1 Positive Correction	No. 2 No Correction	No. 3 Negative Correction
Grate area, sq. inch	= 346	346	346
Heating surface area, sq. in. =	7540	6920	5665
Ratio heating surface area to grate area	= 21.8 to 1	20.0 to 1	16.4 to 1
R—20	= 1.8	0.0	-3.6
Correction percent	= 3.6	0.0	-7.2
1.75 G	= 606	606	606
L = 1.75 G + Correction	= 628	606	562

Every warm air furnace shall be equipped with a water pan or other humidifying device.

c. SECOND FLOOR HEATING

In second floor duplex, flats or apartments where separate heating plants are used, add 50% to the total net calculated areas as determined in Sec. E-603. This represents the required furnace capacity in square inches of leader pipe area. Leaders and stacks are not to be increased.

d. GAS OR OIL-FIRED FURNACE.

In the application of any gas or oil fired furnace to any warm air heating system, any deviation from the Code shall apply only to the furnace itself. Exception: See Sec. E-614-j.

e. LIMITATIONS OF THE CODE.

The formulas for determining the size of basement warm air pipes are applicable to rooms of the proportions found in the average residence. For rooms having ratios of glass to cubic contents falling outside of these average proportions, adjustment must be made in the number of air changes to be used. The formulas are not applicable to pipes having diameters greater than 14 inches or lengths greater than 12 to 16 feet.

The rating formula is applicable to furnaces of the common type of construction having round firepots and ratios of heating surfaces to grate area between 15 and 30. The formula is not applicable to furnaces of special construction or equipped with unusual special features, to ratios outside of 15 to 30, nor to coals deviating materially from 12000 B. t. u. per pound.

f. Certified measurements of warm air furnaces issued by authority of the National Warm Air Heating Association after grate areas and heating surfaces have been accurately measured, shall be accepted as standard ratings."

Section 5. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925, be amended by amending Section E-610 entitled, "Casings" to read as follows:

"E-610. CASINGS.

(a) Warm Air furnaces shall be enclosed in metal casings or walls of brick, tile or concrete.

(b) Portable. Sheet metal casings including casing tops or bonnets shall be made of galvanized sheets, not lighter than 28 U. S. Standard Gauge. They shall fit the castings and casting rings closely, so as to be dust tight, and shall be securely fastened to the front. The casing shall be lined from the upper casing ring down to a line on a level with the grate.

(c) When side collars are used the casing top or bonnet must be of sufficient height so that the largest warm air pipe can be taken from side without ovaling. In no case shall a distance less than eight inches (8") be maintained between the top of any furnace and the bonnet.

(d) The clearance between any combustible beam or joist and above the top of any furnace or smoke pipe shall be at least one(1) foot and the furnace may be depressed in the floor of the basement in order to provide this clearance. (See Sec. A-921).

(e) Openings for side casing collars shall be cut into the casing top or bonnet, so that the tops of all openings are on the level. Casing collars shall be fitted into place with a proper flange, or bead on the outside and drawn up on the inside, making a dust tight joint. All collars shall be of the same size as the warm air pipes to which they are connected.

(f) All metal casing tops shall be insulated with magnesia, asbestos boiler covering or sand.

(g) Brick, cement or hollow tile casings shall be constructed as follows: Walls shall be not less than eight (8) inches in thickness and shall be constructed air tight. The least inside dimensions of rectangular casings shall be the same as that of the portable casing of a corresponding size of furnace. Walls of masonry set furnaces shall be carried to the same height as the walls of a portable furnace allowing not less than eight (8) inches between the top of the furnace and the bottom of the top cover. After placing the collars for the warm air pipes, the masonry shall be continued up even with the top of the collars, spacing rods of bar iron on edge or angle irons, shall be laid across the furnace top. These shall be covered with sheet

iron. The sheet iron shall be covered with masonry and the side walls shall be run four (4) inches above the masonry bed. A galvanized iron casing bonnet may be used on masonry set furnaces.

Provisions shall be made in the walls for a manhole to give ingress to the heater."

Section 6. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925, be amended by amending Section E-611 entitled, "Warm Air Pipes in the Basement or Cellar," to read as follows:

"SEC. E-611. WARM AIR PIPES IN BASEMENT.

Warm air pipes in basement or cellars shall be installed as follows:

(a) All warm air pipes shall be made of bright tin not lighter than IC, or galvanized iron. Side seams shall be locked seams. All joints shall be either double seamed or lapped not less than one and one-quarter inches ($1\frac{1}{4}$ "). Such joints shall be match-beaded, or beaded and soldered or riveted. All pipes and fittings shall be properly secured to ceiling or joist. No solder or riveted joint is required where round pipe slips over the casing collar or enters boot or box. Any pipe twelve inches (12") or greater in diameter shall not be made of material lighter than IX tin or No. 28 U. S. Standard Gauge galvanized iron.

(b) All warm air pipes in the basement shall have an upward pitch of not less than one inch (1") per running foot.

(c) No warm air pipe shall run within one inch (1") of any woodwork unless such woodwork is covered with asbestos paper and the paper covering with tin or iron.

(d) All warm air pipes in the basement shall be provided with dampers supported on both sides not more than two feet from the casing.

(e) Where warm air pipes pass through or into unheated spaces separated from the furnace room they shall be insulated with not less than three layers of air cell asbestos paper or the equivalent."

Section 7. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925, be amended by amending Section E-612 entitled, "Wall Stacks," to read as follows:

"SEC. E-612. WALL STACKS.

(a) Single Stacks. All single wall stacks or wall pipes, heads, boots, ells, tees, angles and other connections shall be made of tin or galvanized iron and shall be covered with not less than one thickness of 12 lbs. per one hundred (100) square feet of asbestos paper. All such stacks shall be braced in a proper manner so as not to obstruct the flow of air but to retain the full capacity throughout. All joints shall be locked and held in place by means of lugs, or straps. No joint, either horizontal or vertical, shall depend wholly upon solder to make it tight. All openings between studs, where single wall stacks are used, shall be lined with metal lath and plaster or an approved fire resisting substitute.

(b) Double Stacks. All double wall stacks or wall pipes, heads, ells, tees, angles, and other connections shall be made of bright tin not lighter than IC or galvanized iron and shall be made double from basement fitting to the top of each and every stack and register head on all floors. There shall be a continuous uniform air space of not less than five sixteenths (5/16) of an inch, which must be maintained between the outer and inner walls of all such pipes and fittings of all kinds, styles and description. Such pipes, heads, and other fitting shall be of an approved design.

(c) All pipes and fittings must be secured firmly in place by lugs or straps attached to the outer walls of stacks and fittings and no nails shall be driven through these stacks or fittings at any point.

No lugs or straps shall be formed by cutting holes in outer or inner walls of stacks and fittings.

No pipes or fittings shall be used which depend wholly on soldered joints.

The various members shall be so made that all joints are locked or soldered and the several members shall be attached to each other with slip joints which are, for the purpose intended, air tight.

(d) Where stacks, heads, boots or other fittings, go through the first floor all openings around such heads, boots stacks, or other fittings must be filled with asbestos paper, cement or other incombustible material to make the openings gas and dust tight.

(e) Wall stacks and pipes shall not be enclosed in new structures until inspected and approved and where same are installed in existing structures, inspector may require such openings or other means to insure compliance with this Code."

Section 8. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925, be amended by amending Section E-613 entitled "Registers" to read as follows:

"SEC. E-613. REGISTERS.

(a) When baseboard or wall registers are used, they shall be properly sealed to the stack head in such a manner as to prevent any leakage of air between the head and the register.

(b) Registers for warm air, warm air pipes or wall stacks shall not be located in outside walls unless properly insulated with at least one inch (1") air cell covering or its equivalent.

(c) Any furnace system having not more than two warm air openings, at least one of these openings shall be without valve or louvers and the pipe thereto shall be without damper."

Section 9. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925, be amended by amending Section E-614 entitled, "The Air Supply to the Furnace," to read as follows:

"SEC. E-614. THE AIR SUPPLY TO FURNACE.

(a) The air supply to the furnace may be taken from outside or from within the building or may be taken partially from outside and partially from within. In no case, however, shall air be supplied to any furnace from any basement or furnace room, not occupied as living quarters.

(b) The cold air intake or return where air is taken from within the building shall have a net area throughout its entire length of not less than the combined net area of all warm air pipes leading from the furnace. This may be maintained in one or more ducts. No reverse incline or air trap will be allowed in any section thereof.

(c) When the cold air supply is taken wholly from the outside of the building the supply duct at its most contracted area must equal or exceed eighty per cent (80%) of the combined area of all warm air pipes leading from the furnace.

(d) Cold air ducts, except as stated in (f), shall be constructed of metal, tile or other non-combustible material having smooth inner surface and shall maintain a constant net area

throughout their entire length. All joints shall be made dust tight. Horizontal rectangular return ducts shall have at least 10% greater area than vertical connecting pipes.

(e) Where a boot or shoe is connected to the casing at the base, the opening shall not extend higher than a line on the level of the top of the grade of the furnace. The width of the shoe shall be of proper measurement to make the area at all points at least equal to that of the round or square pipe to which it is connected. This boot or shoe shall be of streamline transition construction.

(f) Wherever the space between the joists is used to convey cold air overhead bridging and bracing shall be removed and the area sealed with a sheet metal pan. The connection of this pan to the boot or shoe shall be made of galvanized iron not lighter than 28 U. S. Standard Gauge, and shall have a transition collar, the top area of which shall be at least 10% greater than the area of the connecting pipe.

(g) When it is necessary to set the furnace over a pit and connect up cold air under the basement floor, such pit or cold air trench shall not exceed eighteen inches (18") in depth below the casing base ring and width of the trench or trenches shall be of proper measurement to make the area at least 10% greater than the pipe to which it is connected. The connection between the cold air pipe or duct and the underground pit shall be made with a transition fitting as described in "(f)" of this section.

(h) The cold air face or faces shall be made of wood, or metal. Where cold air face is placed in a seat or side wall (whether furnished by owner, general contractor or furnace contractor) the open work of face must extend to within at least one inch (1") of the floor line.

The free area of cold air faces shall be at least equal to the free area of the duct or ducts to which they are connected

(i) The effective area of a vertical cold air face lies within fourteen inches (14") of the floor line, hence, the capacity of any vertical cold air face shall be determined by multiplying the base line in inches by not to exceed fourteen inches (14") in height and deducting for the grills or cross bars.

(j) This Code applies only to gravity warm air systems. When a fan or fans are installed in the air supply duct or elsewhere in the air system, furnace sizes and pipe sizes as

calculated herein shall not be required but installer shall guarantee specific performance.

Section 10. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925, be amended by amending Section E-615 entitled, "Smoke Pipes" to read as follows:

"SEC. E-615. SMOKE PIPES AND FLUES.

(a) The smoke pipe shall be as short and direct as consistent with the location of the furnace. Furnace shall be set to eliminate as far as possible any right angle bends or short radius bends in the smoke pipe. Right angle bends and short radius bends in the smoke pipe may be permitted when chimney is of sufficient height in excess of minimum requirement to overcome draft loss created by such right angle or short radius bends. No smoke pipe shall exceed in length one third (1/3) the height of the flue as measured from the top of grate bars to the top of chimney, except that a smoke pipe up to ten (10) feet long will be permitted connected to a chimney of minimum height as set out in paragraph (f) below.

Smoke pipe shall be made of either black or galvanized iron not lighter than No. 24 U. S. Standard Gauge and shall be the full size of the collar on the furnace throughout its entire length. It must have no openings for attaching any fireplace, stove, range, water heater, gas or ventilating connection. It shall be lock seamed or riveted; all joints shall lap not less than one and one-half (1½) inches and it shall be rigidly secured. Cast iron smoke pipe may be used.

All smoke pipes shall be provided with check dampers, placed on the side of the pipe or at the end of a tee. When cast iron smoke pipe dampers are used they must be placed between the check damper and the furnace and supported on both sides of the pipe.

(b) Where the smoke pipe enters the flue, a thimble shall be cemented into the flue and the connections thereto made air tight. Should any smoke pipe come within eighteen (18) inches of any combustible material, such combustible material must be covered with asbestos paper and a metal shield so fastened that a two (2) inch air space exists between this shield and the combustible material. This shield shall be not less in size than twice the diameter of the smoke pipe and

of sufficient length to cover the wood at all points. No smoke pipe shall be nearer than eight (8) inches to any combustible material.

(c) No smoke pipe shall project through any external wall or window or any wooden or combustible partition.

(d) No furnace connection shall be made to a flue without a cast iron or steel cleanout having first been provided in the flue. Top of such cleanout shall be not more than ten (10) inches nor less than six (6) inches below the bottom of smoke pipe opening. The base of flue shall be filled up to the bottom of the cleanout; all of which must be made air tight.

(e) No warm air furnace as described in this part shall be connected to a flue of less dimensions than eleven and one quarter ($11\frac{1}{4}$) inches by eleven and one quarter ($11\frac{1}{4}$) inches, except that warm air furnaces having a grate area less than two hundred fifty (250) square inches may be connected to a flue no smaller than seven and one quarter ($7\frac{1}{4}$) inches by eleven and one quarter ($11\frac{1}{4}$) inches. Round flues of equal area to rectangular flues or round flues whose inner diameter is not less than the side measurement of a square flue, shall be considered equivalent to any rectangular or square flue respectively.

Chimneys and flues in Class D Buildings shall conform to requirements set out in Section A-822, Section A-941, and Section E-808.

(f) No chimney or flue to which a warm air furnace is connected shall be less than twenty-eight (28) feet in height above the grate bars of the furnace and such chimney or flue also shall extend to a height at least two (2) feet above the highest point of a pitched roof or four (4) feet above any flat roof. The top of no chimney or flue shall be less than six (6) feet from any other roof or woodwork.

(g) The following exceptions shall apply to this section. When a new furnace is placed in an existing structure, the combustion engineer may grant permission to use an existing chimney not entirely in conformity with the requirements herein set forth if he deems same reasonably safe and sufficient. When a warm air furnace is set to replace an old furnace of like size and without the addition of warm air openings or registers, the existing chimney may be used if satisfactory draft was obtained for the furnace so replaced."

Section 11. That Division E—Part Six of Section 865 of General Ordinance No. 121, 1925, be amended by amending Section E-616 entitled, "Single Pipe Furnaces," to read as follows:

"SEC. E-616. PIPELESS OR ONE PIPE FURNACES.

(a) When but one duplex grating is used for both warm air and cold air in a so-called pipeless furnace, the area of the cold air intake shall be at least equal to the area of the warm air outlet of the grating. Sec. E-610 relative to casings shall not govern when this type of furnace is installed, but the following specifications shall be followed:

The inner and outer casings of this type of furnace may be made of either black or galvanized iron not lighter than No. 28 U. S. Standard Gauge. A uniform air space shall be maintained at all points between the inner and outer casing. In no case shall the top of the heater be allowed closer than twelve inches (12") to any ceiling or joists above the furnace.

(b) Where joists are cut to accommodate this furnace, headers shall be put in and braced.

(c) Method of determining size of warm air pipe as given in Sec. E-603 shall not apply to pipeless furnaces.

(d) Where one warm air register face is used and separate face or faces for cold air supply are used, then Sec. E-611, E-613 and E-614 shall apply."

Section 12. All ordinances or parts of ordinances in conflict here-with are hereby repealed.

Section 13. This ordinance shall be in full force and effect from and after its passage and approval by the Mayor and due publication as by law required.

Which was read the first time and referred to the Committee on Public Safety.

By Board of Public Safety:

GENERAL ORDINANCE NO. 15, 1932

AN ORDINANCE to amend Section F-609 of Division F, Part Six of Section 865 of General Ordinance No. 121, 1925, repealing all ordinances in conflict therewith and fixing a time when same shall take effect.

BE IT ORDAINED BY THE COMMON COUNCIL OF THE
CITY OF INDIANAPOLIS, INDIANA:

Section 1. Section F-609 of the Indianapolis Building Code, 1925, entitled "Relief Valves," shall be and is hereby amended to read as follows:

"SEC. F-609. RELIEF VALVES.

(a) To protect property owners against explosion, all Range Boilers, Hot Water Storage Tanks, and Water Heaters shall be equipped with a Pressure Relief Valve either of the Laminated Metal Diaphragm type or of the Dead Weight type. In addition, there shall also be installed a Check Valve and a Water Shut-off valve; the three valves to be installed between the hot water tank and the street main in the positions and order herein set forth.

(b) Relief Valve shall be installed between the hot water tank and the street main so that there is no stop or valve of any kind between said Relief Valve and the hot water tank. The Check Valve shall be placed between the Relief Valve and a Water Shut-off Valve which shall be placed so that hot water tank may be removed without shutting off the water supply from any of the rest of the building.

(c) Relief Valve shall be not less than one-half inch nominal pipe size, either of the Laminated Metal Diaphragm type or of the Dead Weight type, with corrosion resisting seat and shall be set and sealed to open at one hundred and twenty-five pounds (125 lbs.) pressure per square inch. No spring loaded pop-safety valve shall be used. The Commissioner of Buildings shall approve relief valves for this service and may approve suitable combination valves incorporating any or all of the types of valves required by this section.

AN ORDINANCE to amend Division E—Part Five of Section 865 of General Ordinance No. 121, 1925, by amending Sec. E-502, repealing all ordinances in conflict therewith and fixing a time when same shall take effect.

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS, INDIANA:

Section 1. That Division E—Part Five of Section 865 of General Ordinance No. 121, 1925, known as the Indianapolis Building Code of 1925 be amended by amending Sec. E-502 entitled "Guyed Sheet Metal Stacks" to read as follows:

"SEC. E-502. GUYED SHEET METAL STACKS.

(a) Guyed sheet metal stacks shall be of such gauge as will allow for corrosion, the support of its own weight and prevent buckling under the weight and tension of guy wires and the stress due to wind pressure.

The degree of permanence required shall govern largely the thickness of plate to be used. The following table shall be used as a basis for determining the plate thicknesses:

Diameter, inches	Thickness	U. S. Std. Gauge No.
18 to 22	.1094"	12
22 to 26	.1094" to .1406"	12 to 10
26 to 30	.1406"	10
30 to 36	.1406" to .1719"	10 to 8
36 to 42	.1406" to .1875"	10 to 7
42 to 48	.1406" to .2500"	10 to 3

Plates may be riveted or shop welded. When riveted, rivets shall be not less than 5/16" diameter for Nos. 8 to 12 gauge plate, 7/16" diameter for Nos. 4 to 7 gauge plate and 1/2" diameter for No. 3 gauge plate. The circumferential pitch of rivets shall not be more than three (3) inches and the longitudinal pitch from three (3) to four (4) inches. It is considered best practice to assemble sections so that the lower end of the upper section slips into the lower section.

(b) Guys shall be stranded galvanized or other rust resisting wire rope without splices and shall have turn-buckles except by special permission, approved clamps may be used. Guys shall be figured by placing the entire overturning load on one (1) strand of each set.

(c) The anchorage shall be such as will withstand its portion of the wind load and shall be provided with eye-bolt or other suitable method to prevent cutting or other failure of the guy wires at the anchorage. No anchorage shall be made to a parapet wall unless a plate or other satisfactory method is used to distribute the load below the roof line.

(d) Sheet metal stacks up to and including twenty-five (25) feet in height shall have at least one (1) set of four

(4) guys not less than five-sixteenths (5/16) inch stranded cable as described in paragraph (b) above.

Sheet metal stacks over twenty-five (25) feet in height up to and including one hundred (100) feet in height shall have at least two (2) sets of four (4) guys not less than three-eighths ($\frac{3}{8}$) inch stranded cable as described in paragraph (b) above.

Sheet metal stacks over one hundred (100) feet in height shall have at least three (3) sets of four (4) guys not less than seven-sixteenths (7/16) inch stranded cable as described in paragraph (b) above.

When more than one set of guys are required, the upper set shall be placed not more than twelve (12) feet down from the top. When two sets of guys are required, the lower set shall be placed two-thirds (2/3) the distance from the base to the upper set. When three sets of guys are required the lower set shall be placed one half ($\frac{1}{2}$) the distance from the base to the upper set and the middle set approximately one half ($\frac{1}{2}$) way between the upper and lower set.

Lower set of guys shall be anchored at a distance from the base of the sheet metal stack equal to their height above the point of anchorage. Sets of guys above the lower set shall be anchored at a distance equal to or greater than the distance between the stack and the anchorage of the lower guys and should be as near as practical at a distance from the stack equal to their own height above their respective anchorages. When anchorages are not on the same elevation as the base of the sheet metal stack, the lower set of guys shall be at an angle of forty-five (45) degrees or more with the center line of the stack and upper sets shall approach as near as possible forty five (45) degrees. When it is impossible to use sets of four guys permission may be granted by the Combustion Engineer for the use of rigid supports or other satisfactory methods of guying.

(e) Sheet metal stacks used to top out masonry flues and not exceeding sixteen (16) inches in diameter and/or fifteen (15) feet in height above the top of masonry flue, shall not be governed by the above regulations but shall be erected in such a manner as to insure complete safety and be approved by the Combustion Engineer.

(f) In manufacturing establishments, smoke stacks built of iron or steel shall not be used or erected in such a manner as to pass through the roofs of such buildings unless such metallic smoke pipes, flues or stacks are separated from any woodwork with a ventilating air space at least twelve (12) inches in any direction and in addition such woodwork shall be substantially covered with at least $\frac{1}{4}$ " sheet asbestos or equal incombustible material.

Section 2. All ordinances or parts of ordinances in conflict here-with are hereby repealed.

Section 2. The city controller shall, as soon as possible after the passage of this ordinance, advertise for bids or proposals for said bonds, by at least one (1) insertion each week for two (2) weeks in two (2) daily newspapers of general circulation, printed and published in the English language in the City of Indianapolis, Indiana, and as required and authorized by law, and may otherwise advertise for such bids or proposals as he may deem advisable. Such advertisement shall describe said bonds with such detail as the city controller may see fit, and shall set forth the amount of the bonds to be sold and the rate of interest they may bear; the date of opening bids or proposals therefor, the terms of sale, the right of the city controller to reject any and all bids, the amount of deposit each bidder shall be required to make, and when and where the bonds shall be delivered and paid.

Section 3. Each and every bid and proposal shall be presented to the city controller sealed, and shall be accompanied by a duly certified check, or cashier's check, upon some responsible bank or trust company in the City of Indianapolis, payable to the order of the city treasurer, for a sum of money which shall equal two and one-half percent ($2\frac{1}{2}\%$) of the face or par value of the bonds bid for or proposed to be purchased. The city controller shall continue to receive all bids or proposals therefor at the office of the city controller until eleven (11) o'clock A. M. on the day fixed by the city controller and designated in the advertisement for receiving bids or proposals, at which time and place and between the said hour and twelve (12) o'clock noon of said day he shall open said bids or proposals, and shall continue to receive bids at said time and place from day to day thereafter until said bonds are sold. The city controller shall award said bonds, or as he shall see fit, a part or any number thereof, to the highest and best bidder therefor, but said city controller shall have the right to reject any and all bids or proposals or any part thereof, and shall have the right to accept a part of any bid, and to award upon any bid the whole or a less number of bonds covered by said bid, he being the sole judge of the sufficiency or insufficiency of any kind. He may also in his judgment and discretion award a part of said bonds to one bidder and a part to another. The provisions shall apply to the case of reoffering and readvertising of said bonds as herein-after provided.

Section 4. In case the city controller shall reject all bids submitted, or, if he shall award only a part of said bids, he shall readvertise the bonds remaining unsold in the manner as herein prescribed for the original advertisement, but in such readvertisement he is

authorized and directed to fix the date and time both of receiving and opening bids or proposals, and for purchasers to take up and pay for the bonds which may be awarded. And he shall continue from time to time in like manner to readvertise said bonds for sale until said bonds are sold.

Section 5. In case any bid or proposal shall not be accepted and there shall be no award of bonds thereon by the city controller, he shall thereupon return to such unsuccessful bidder the certified or cashier's check accompanying the same. If the city controller shall award the whole or any part of the bonds upon any bid or proposal he shall deliver the certified or cashier's check accompanying the same to the city treasurer, who shall thereupon present the same for payment and shall be entitled to collect the same and shall hold the proceeds collected thereon until the completion of the purchase and the payment for the bonds so awarded. If, for any reason, said check shall not be paid upon presentation, such non-payment shall be taken and deemed a breach of contract for purchase of said bonds upon the part of the purchaser, and the city, in that event, shall have the right to readvertise said bonds for sale at once, and shall, in such event, retain such check and shall have the right to collect the same for its own use, and said check and proceeds thereof, when collected, shall be taken and deemed as agreed and liquidated damages for such breach of contract and as a payment thereof to the city. In case any successful bidder shall fail to complete the purchase price of the bonds so awarded and to pay for the same within the time and manner herein required, or which may be prescribed by the city controller as herein provided, the proceeds of such certified or cashier's check deposited by such bidder shall be taken, considered and deemed as agreed and liquidated damages for the breach of such bidder's contract of purchase and shall be taken and deemed as a payment to the city for such damages, and shall be retained and held by said city for its use, but if such successful bidder shall complete the purchase of said bonds awarded to him pursuant to the provisions hereof and his bid and award thereon, said proceeds of said certified or cashier's check shall thereupon be returned to such bidder, or at the option of the city controller at the time of the completion of the sale and payment for the bonds said proceeds of said certified or cashier's check may be applied and deemed a payment on account of the purchase of said bonds.

Section 6. Delivery of any bonds shall be made at the office of the city controller of the City of Indianapolis, Indiana, upon such day or days as may be specified in the advertisement or advertisements for proposals or within such time thereafter as may be fixed by the

city controller and the purchaser or purchasers, and the city controller may extend the time for such delivery not more than twenty (20) days after the day or days specified or agreed upon as above provided, and the successful bidder or bidders shall take the bonds awarded to him or them and pay for the same at such time and place, and his or their refusal, neglect or omission so to do shall be a breach of the contract of his bid or proposal on account of which damages shall be retained or recovered as liquidated, as provided in this ordinance.

Section 7. The bonds taken and paid for to the satisfaction of the city controller shall be a binding obligation on the city of Indianapolis, according to their tenor and effect, and the proceeds derived from the sale, or sales, or both, as herein authorized, shall be and are hereby appropriated to the board of public works for the purpose of elevating and altering grade crossings, and the same shall constitute and continue as an appropriation for the specified purposes as hereinbefore set out until all the said improvements have been duly made and paid for, and any residue of such proceeds remaining thereafter shall become part of and is hereby appropriated to the Track Elevation Fund of the board of public works of said city to be used by said board in the elevation and alteration of grade crossings of said city as said board may, by resolution, direct.

Section 2. The City Controller shall, as soon as possible after the passage of this ordinance, advertise for bids or proposals for said bonds, by at least one (1) insertion each week for two (2) weeks in two (2) daily newspapers of general circulation, printed and published in the English language in the City of Indianapolis, Indiana, and as required and authorized by law, and may otherwise advertise for such bids or proposals as he may deem advisable. Such advertisement shall describe said bonds with such detail as the city controller may see fit, and shall set forth the amount of the bonds to be sold and the rate of interest they may bear; the date of opening bids or proposals therefor, the terms of sale, the right of the City Controller to reject any and all bids, the amount of deposit each bidder shall be required to make, and when and where the bonds shall be delivered and paid.

Section 3. Each and every bid and proposal shall be presented to the City Controller sealed, and shall be accompanied by a duly certified check, or cashier's check, upon some responsible bank or trust company in the City of Indianapolis, payable to the order of the City Treasurer, for a sum of money which shall equal two and one-half percent (2½ %) of the face or par value of the bonds bid for or proposed to be purchased. The City Controller shall continue to receive all bids or proposals therefor at the office of the City Controller until eleven (11) o'clock A. M. on the day fixed by the City Controller and designated in the advertisement for receiving bids or proposals, at which time and place and between the said hour and twelve (12) o'clock noon of said day he shall open said bids or proposals, and shall continue to receive bids at said time and place from

day to day thereafter until said bonds are sold. The City Controller shall award said bonds, or as he shall see fit, a part or any number thereof, to the highest and best bidder therefor, but said City Controller shall have the right to reject any and all bids or proposals or any part thereof, and shall have the right to accept a part of any bid, and to award upon any bid the whole or a less number of bonds covered by said bid, he being the sole judge of the sufficiency or insufficiency of any kind. He may also in his judgment and discretion award a part of said bonds to one bidder and a part to another. The provisions shall apply to the case of reoffering and readvertising of said bonds as hereinafter provided.

Section 4. In case the City Controller shall reject all bids submitted or, if he shall award only a part of said bids, he shall readvertise the bonds remaining unsold in the manner as herein prescribed for the original advertisement, but in such readvertisement he is authorized and directed to fix the date and time both of receiving and opening bids or proposals, and for purchasers to take up and pay for the bonds which may be awarded. And he shall continue from time to time in like manner to readvertise said bonds for sale until said bonds are sold.

Section 5. In case any bid or proposal shall not be accepted and there shall be no award of bonds thereon by the City Controller, he shall thereupon return to such unsuccessful bidder the certified or cashier's check accompanying the same. If the City Controller shall award the whole or any part of the bonds upon any bid or proposal he shall deliver the certified or cashier's check accompanying the same to the City Treasurer, who shall thereupon present the same for payment and shall be entitled to collect the same and shall hold the proceeds collected thereon until the completion of the purchase and the payment for the bonds so awarded. If, for any reason, said check shall not be paid upon presentation, such non-payment shall be taken and deemed a breach of contract for purchase of said bonds upon the part of the purchaser, and the city, in that event, shall have the right to readvertise said bonds for sale at once, and shall, in such event, retain such check and shall have the right to collect the same for its own use, and said check and proceeds thereof, when collected, shall be taken and deemed as agreed and liquidated damages for such breach of contract and as a payment thereof to the city. In case any successful bidder shall fail to complete the purchase price of the bonds so awarded and to pay for the same within the time and manner herein required, or which may be prescribed by the City Controller as herein provided, the proceeds of such certified or cashier's check

deposited by such bidder shall be taken, considered and deemed as agreed and liquidated damages for the breach of such bidder's contract of purchase and shall be taken and deemed as a payment to the city for such damages, and shall be retained and held by said city for its use, but if such successful bidder shall complete the purchase of said bonds awarded to him pursuant to the provisions hereof and his bid and award thereon, said proceeds of said certified or cashier's check shall thereupon be returned to such bidder, or at the option of the City Controller at the time of the completion of the sale and payment for the bonds said proceeds of said certified or cashier's check may be applied and deemed a payment on account of the purchase of said bonds.

Section 6. Delivery of any bonds shall be made at the office of the City Controller of the City of Indianapolis, Indiana, upon such day or days as may be specified in the advertisement or advertisements for proposals or within such time thereafter as may be fixed by the City Controller and the purchaser or purchasers, and the City Controller may extend the time for such delivery not more than twenty (20) days after the day or days specified or agreed upon as above provided, and the successful bidder or bidders shall take the bonds awarded to him or them and pay for the same at such time and place, and his or their refusal, neglect or omission so to do shall be a breach of the contract of his bid or proposal on account of which damages shall be retained or recovered as liquidated, as provided in this ordinance.

Section 7. The bonds taken and paid for to the satisfaction of the City Controller shall be a binding obligation on the City of Indianapolis, according to their tenor and effect, and the proceeds derived from the sale, or sales, or both, as herein authorized, shall be and are hereby appropriated to the Board of Public Works for the purpose of improving, widening and resurfacing certain streets of said city all as specifically set out in "Exhibit A", and the same shall constitute and continue as an appropriation for the specified purposes as hereinbefore set out until all the said improvements have been duly made and paid for, and any residue of such proceeds remaining thereafter shall become part of and is hereby appropriated to the Street Resurfacing Fund of the Board of Public Works of said city to be used by said board in the resurfacing of such other street or streets of said city as said board may, by resolution, direct.

Section 8. The Mayor, City Controller and Corporation Counsel are hereby authorized and directed to publish notices of the herein determination to issue bonds, as required by law.

Section 9. This ordinance shall be in full force and effect from and after its passage and approval by the Mayor.

Wm. L. Elder, City Controller,

City of Indianapolis.

Dear Sir:

We find that in the preparation of the budget for the Police Radio Station there was no provision made for the purchase of coal for heating the building. It has been absolutely necessary, of course, to buy coal and we now hold bills for coal and have no money with which to pay them. Also, there has been need for having some blue prints made, and the purchase of a few office supplies for which there are no funds. Therefore, we are respectfully requesting that an ordinance be prepared and presented to the Common Council asking for the following transfers in the Police Radio Budget:

From Fund No. 22—Heat, Light and Power, transfer \$240.00 and reappropriate same to Fund No. 32—Fuel and Heat,

From Fund No. 22—Heat, Light and Power, transfer \$65.00 and reappropriate same to Fund No. 24—Printing and Advertising.

From Fund No. 38—General Supplies, transfer \$25.00 and reappropriate same to Fund No. 36—Office Supplies.

Respectfully submitted,

BOARD OF PUBLIC SAFETY,

Executive Secretary.

GENERAL ORDINANCE NO. 57, 1932

CITY OF INDIANAPOLIS

AN ORDINANCE to prevent fraudulent sales, and to regulate the sale and advertising, or offering for sale of goods, wares and merchandise; to provide for the licensing of certain kinds of sales; to provide for the renewal and the revocation of such licenses, and providing penalties for the violation hereof.

**BE IT ORDAINED BY THE COMMON COUNCIL OF THE
CITY OF INDIANAPOLIS, INDIANA:**

Section 1. That it appears to the City Council of the City of Indianapolis, in connection with the type of sale and advertising in this ordinance regulated and licensed, that such type of sale through the commingling of distressed and other merchandise, and through the false and deceptive advertising connected therewith, has worked and does work a fraud upon the public, and that there is a need to exercise the police power to regulate such sales, and to prevent certain abuses connected therewith.

Section 2. That no person shall advertise, or cause to be advertised, or represent or cause to be represented to the public in any manner, that any sale in the City of Indianapolis, including a sale at auction, is a sale of distressed goods, wares, or merchandise; or that it is a closing out sale as elsewhere defined in this ordinance, unless such person shall have first obtained a license as herein provided, from the City Controller of the City of Indianapolis.

Section 3. That the word "person" as used in the ordinance shall mean and include any person, firm, partnership or corporation. In the case of a firm or corporation, any officer or any manager in charge shall be responsible for obtaining such license and otherwise complying with all the provisions of this ordinance.

Section 4. "Distressed goods, wares or merchandise," as used in this ordinance, shall include all goods, wares and merchandise advertised or otherwise offered as an insurance, bankruptcy, mortgage, insolvent, assignee's, executor's, administrator's, receiver's or trustee's sale of goods, wares and merchandise; or any sale of goods, wares and merchandise advertised or otherwise offered as damaged by fire, smoke, water, or in any such manner; or a sale of goods, wares and merchandise advertised as obtained by, through, as a result of, or by reason of any of the above named situations or contingencies.

Section 5. The fee for such license shall be the sum of \$25.00 plus two dollars for each thousand dollars or fraction thereof of the submitted inventory; and such license shall be for a period of ninety days from the date of its issuance.

Section 6. An application for such license shall be made to the City Controller in writing and under oath, showing all the facts in regard to the insurance, bankruptcy, mortgaging, insolvency, assignment, administration, receivership or trusteeship, by reason of which such sale is to be conducted, or in regard to the closing out of his

stock of goods, wares, and merchandise, or any particular line or part thereof, with a statement as to the reason for such closing out; or the facts in regard to the injury caused to such goods, wares, or merchandise by fire, smoke, water or otherwise, and showing all the facts in regard to the sale which he proposes to conduct and the place and manner of conducting the same. With such application the applicant shall file a sworn inventory of the goods, wares and merchandise to be sold at such sale, and a statement, as far as possible, of the names of the persons from whom the goods, wares and merchandise so to be sold were obtained, the date that delivery of such goods, wares and merchandise was taken, and all the details necessary to fully identify the goods, wares and merchandise so to be sold. Such application shall specify the proposed period of time over which the sale may continue. This time shall not exceed ninety days unless during such ninety days a sworn application to be filed with the City Controller in which it is shown that all of the goods of the original inventory have not been sold, and accompanied by an inventory of the remaining merchandise that has not been sold, then the City Controller shall issue a supplemental license providing the applicant has complied with all the requirements of the original license, and providing the applicant pays an additional license fee of \$25.00 per day; and such supplemental license shall continue in effect only as long as said daily license fee shall be paid, and as long as such licensee shall comply in every way with the provisions of this ordinance.

Any application for a license under the provisions of this ordinance, covering any goods, wares or merchandise previously inventoried and licensed, shall be deemed to be an application for a renewal under section six of this ordinance, whether presented by the original applicant or by any other person.

Section 7. The City Controller shall file such applications as a public record and shall endorse on each application the date on which a license is granted or refused.

Section 8. The making of a false statement in any part of such application shall be a violation of this ordinance, and shall be sufficient grounds for the refusal of a license or for a revocation of any license already granted.

Section 9. The license provided for herein shall be valid only for the inventoried goods. Commingling of additional or other goods, wares or merchandise with that shown in the inventory shall cause the merchandise inventoried to lose its identity as distressed goods,

and any such license issued shall cease to apply to the sale of such goods. If the inventoried stock shall be put on sale with other stock, then the same shall be considered and deemed to be commingled, unless it is clearly and sufficiently segregated and marked or identified so that it may be readily distinguished from other stocks, and its identity readily ascertained.

Section 10. No person seeking a license hereunder shall secure goods, wares, or merchandise prior to the application for a license for the purpose of commingling it with the distressed stock, and any unusual purchase or addition to stocks within sixty days prior to application for license shall be presumptive evidence that any such purchase or addition was made for the purpose of commingling at such sale.

Section 11. No person operating under such a license shall add any goods to the inventoried stock and no goods shall be sold in such sale except that included in the original inventory. Each sale of goods not so inventoried shall constitute a separate offense under this ordinance.

Section 12. This ordinance shall not apply to public or court officers, or to any person acting under the direction of State or Federal Courts in the course of their official duties.

Section 13. Any person violating any of the provisions of this ordinance, and being convicted thereof, shall be punished by a fine of not to exceed \$300.00, or by imprisonment for a period not exceeding ninety days, or by both such fine and imprisonment in the discretion of the court.

Section 14. Whereas an emergency is considered to exist, this ordinance shall go into effect immediately upon its passage by the Council and its being signed by the Mayor.

Which was read the first time and referred to the Committee on Finance.

Section 2. The City Controller shall, as soon as possible after the passage of this ordinance, advertise for bids or proposals for said bonds by at least one insertion each week for two consecutive weeks in two daily newspapers of opposite political faith, of general circulation, printed and published in the English language, in the City of Indianapolis, Marion County, Indiana, as required and authorized by law; and may otherwise advertise for such bids or proposals as he may deem advisable. Such advertisements shall describe said bonds with such minuteness and particularity as the said City Controller shall see fit and shall set forth the amount of said bonds to be sold and that the bidder shall bid upon the rate of interest to be paid upon said bonds, the bonds to be awarded to the bidder bidding the lowest rate of interest thereon; that the bidder may bid for all or any part of said bonds; the date of opening bids or proposals therefor; the right of the City Controller to reject any or all bids; the amount of deposit each bidder will be required to make and when and where the bonds shall be delivered and paid for.

Section 3. Each and every bid and proposal shall be presented to the City Controller sealed, and shall be accompanied by a duly certified or cashier's check upon some responsible bank or trust company of the City of Indianapolis, Indiana, payable to the order of the City Treasurer, for a sum of money which shall equal two and one-half percent ($2\frac{1}{2}\%$) of the face or par value of the bonds bid for or proposed to be purchased. The City Controller shall continue to receive all bids or proposals thereafter at the office of the City Controller until eleven o'clock a. m. on the day fixed by the City Controller and designated in the advertisement for receiving bids or proposals, at which time and place and between the said hour and twelve o'clock noon of said day he shall open said bids or proposals. The City Controller shall award said bonds, or as he shall see fit, a part or any number thereof, to the highest and best bidder, who shall in this event be the bidder who shall bid the lowest rate of interest upon said bonds, and said City Controller shall have the right to reject any or all such bids or proposals or any part thereof and shall have the right to accept any part of any bid and to award upon any bid the whole or a less number of bonds covered by such bid, he being the sole judge of the sufficiency or insufficiency of any kind, except that he shall not award such bonds to any bidder bidding a rate of interest upon said bonds more than four percent (4%) per annum thereon. He may also, in his judgment and discretion, award a part of said bonds to one bidder and a part to another. These provisions shall apply to the case of reoffering and readvertising said bonds as hereinafter provided.

Section 4. In case the City Controller shall reject all bids submitted, or if he shall award only a part of said bids, he shall readvertise the bonds remaining unsold in the manner as herein prescribed for the original advertisement, and in such readvertisement he is authorized and directed to fix the date and the time both of receiving and opening bids or proposals, and for purchasers to take up and pay for the bonds which may be awarded. And he shall continue from time to time in like manner to readvertise said bonds for sale until said bonds are sold.

Section 5. In case any bid or proposal shall not be accepted and there shall be no award of bonds thereon by the City Controller, he shall thereupon return to such unsuccessful bidder the certified or cashier's check accompanying the same. If the City Controller shall award the whole or any part of the bonds upon any bid or proposal, he shall thereupon deliver the certified or cashier's check accompanying the same to the City Treasurer, who shall thereupon present the same for payment and shall be entitled to collect the same and shall hold the proceeds collected thereon until the completion of the purchase and the payment for the bonds so awarded. If, for any reason, said check shall not be paid upon presentation, such non-payment shall be taken and deemed a breach of contract for purchase of said bonds upon the part of the purchaser, and the city, in that event, shall have the right to readvertise said bonds for sale at once and shall have the right to collect the same for its own use, and said check and proceeds thereof, when collected, shall be taken and deemed as agreed and liquidated damages for such breach of contract and for payment thereof to the city.

In case any successful bidder shall fail to complete the purchase price of the bonds so awarded and to pay for the same within the time and manner herein required, or which may be prescribed by the City Controller as herein provided, the proceeds of such certified or cashier's check deposited by such bidder shall be taken, considered and deemed as agreed and liquidated damages for the breach of such bidder's contract to purchase and shall be taken and deemed as a payment to the city for such damages and shall be retained and held by said city for its use; but if such successful bidder shall complete the purchase of said bonds awarded to him pursuant to the provisions hereof and his bid and award thereon, said proceeds of said certified or cashier's check shall thereupon be returned to such bidder, or, at the option of the City Controller, at the time of the completion of the sale and payment of the bonds, said proceeds of said certified or cashier's check may be applied and deemed a payment on account of the purchase of said bonds.

Section 6. Delivery of any bonds shall be made at the office of the City Treasurer of the City of Indianapolis, Indiana, upon such day or days as may be specified in the advertisement or readvertisement, or within such time thereafter as may be fixed by the City Controller and the purchaser or purchasers and the City Controller may extend the time for such delivery not more than ten (10) days after the day or days specified or agreed upon as above provided, and the successful bidder or bidders shall take the bonds awarded to him or them, and pay for the same at such place and time, and his or their refusal or neglect or omission so to do shall be a breach of the contract of his or their bid or proposal on account of which damages shall be retained or recovered as liquidated, as provided in this ordinance.

Section 7. The bonds taken and paid for to the satisfaction of the City Controller shall be a binding obligation of the City of Indianapolis according to their tenor and effect, and the proceeds derived from the sale or sales or both as herein authorized shall be and are hereby appropriated to the Department of Law for the payment of judgment claims, interest and costs thereon, hereinbefore set out, and shall constitute and continue appropriations until all of said designated claims, interest and costs have been paid.

Section 8. The Mayor, City Controller and Corporation Counsel are hereby authorized and directed to publish notices of the herein determination to issue bonds as required by law.

Section 9. This ordinance shall be in full force and effect from and after its passage and approval by the Mayor.

Which was read the first time and referred to the Committee on Finance.

2. Space in the hangar of the Owner at its said Municipal Airport. This space to be determined upon from time to

time by the Operations Department of the Tenant, as it may find necessary for their operations.

3. The non-exclusive right to use the flying field and its facilities at said Municipal Airport for any and all purposes incident to the transportation by air of passengers, mail, express or other cargo.
4. The non-exclusive use of all roadways, alleyways, passageways, etc., necessary for ingress and egress between the public highways and to and from the flying field and all its facilities, and to and from the hangar and other quarters used or occupied by the Tenant.
5. The right of the Tenant to use at the Airport its own trucks, tractors, and other vehicles for the purpose of moving and servicing its own airplanes and incidental purposes, and to install, maintain and operate gasoline and/or oil storage tanks and servicing equipment.

All of said property so demised and leased and permitted shall be used and occupied by the Tenant, subject, however, to all rules and regulations governing said Municipal Airport now in force or which may hereafter be adopted by said CITY OF INDIANAPOLIS, including the right of the owner to modify said space and change the location thereof, and the decision of said Owner shall be final and without appeal; such space presently used is shown on attached blue print.

PARAGRAPH 2

TO HAVE AND TO HOLD said demised premises, subject to the agreements, conditions, covenants and terms herein contained and subject also to all rules and regulations governing said airport now in force or which may hereinafter be adopted by said CITY OF INDIANAPOLIS, for and during the whole term of five (5) years from date, and in the event Tenant shall erect a hangar as provided in Paragraph 7 hereof, then in that event this lease shall be for a period of twenty (20) years from date, with an option to renew the same for ten (10) years additional by Tenant, unless sooner terminated as herein provided, at the rentals hereinafter set forth, all of said rentals to be accounted for monthly and to be paid at the office of the City Controller of the CITY OF INDIANAPOLIS in the City Hall, on or before the 10th day of the month immediately following the month for which they are charged. Upon the erection of such hangar, the Tenant may cancel its lease for office and hangar space.

PARAGRAPH 3

IT IS MUTUALLY COVENANTED and agreed between the parties hereto that this agreement is made upon the foregoing and upon the following agreements, conditions, covenants and terms, to-wit:

1. The Owner guarantees and represents that it owns, with power to lease, the Municipal Airport situated in Indianapolis, Indiana, (as shown on Schedule "A"), consisting of approximately nine hundred and forty-seven (947) acres, and containing the property herein described.
2. If the Owner shall not have the power to execute this lease for the term herein provided, or of any extension of such term, then this lease shall not thereby be void, but shall be deemed to be for a term from year to year, or for such other fixed period as shall be legal, and this clause shall thereupon supersede any other term of years herein prescribed.
3. That in the event the Tenant shall need additional space either in the administration building or hangars of the Owner for the conducting of its operations, the Owner agrees to supply the same on demand, if any such space be available, at the same rental per square foot as herein provided.
4. The Tenant shall pay to the Owner the following rentals:
 - (a). One Dollar (\$1.00) per square foot per annum for the number of square feet to be used or occupied by the Tenant in the administration building of the Owner situated on said airport.
 - (b) Thirty Cents (\$0.30) per square foot per annum for the number of square feet to be used or occupied by the Tenant in the hangar of the Owner situated on said airport.
 - (c) Thirty Cents (\$0.30) per square foot per annum for the number of square feet to be used or occupied by the Tenant in the shop of the Owner situated on said airport. The number of square feet so occupied or used in the shop of the Owner situated on said airport to be limited to four hundred (400) square feet.
 - (d) Five Dollars (\$5.00) per night for each trimotored airplane stored by the Tenant in the Owner's hangar, but in no event to exceed Seventy-five Dollars (\$75.00) for any one airplane per month; single engine Three Dollars

(\$3.00) per night, but in no event to exceed Fifty Dollars (\$50.00) maximum for any one such airplane per month.

- (e) As additional rental for the rights and privileges in the lease provided, the Tenant will pay to the Owner Two Cents (\$0.02) per gallon on the first 5,000 gallons of gasoline sold, used or delivered in each month by the Tenant to its own or its subsidiary companies' aircraft at said airport; One and One-half Cents (\$0.01½) per gallon on the next additional 5,000 gallons of gasoline or fraction thereof so sold, used, or delivered in each month; and One Cent (\$0.01) per gallon on the excess above 10,000 gallons of gasoline so sold, used or delivered in each month; such charge to be not less for any calendar month than a minimum of One Hundred Dollars (\$100.00).

Provided, that Owner may elect to charge, in lieu of the foregoing basis for the additional rental hereinabove provided, and the Tenant agrees to pay upon notice to it in writing of the exercise of such option by the Owner, as such additional rental hereunder, the sum of One Hundred Dollars (\$100.00) per month minimum charge for months during which the number of scheduled daily landings of Tenant's airplanes at said airport shall be six (6) or fewer such scheduled landings. In the event that there are more than six (6) scheduled landings daily and fewer than twelve (12) scheduled landings daily, the price for the first five (5) additional landings shall be Fifteen Dollars (\$15.00) per month for each such additional scheduled landing, and One Hundred and Seventy-five Dollars (\$175.00) per month for twelve (12) scheduled daily landings; provided, however, in the event there are more than twelve (12) scheduled landings daily, the price for each additional scheduled daily landing in excess of twelve (12) shall be Ten Dollars (\$10.00) per month for each such additional scheduled landing.

5. The Owner covenants and agrees to maintain, at all times, the airport landing field and each and every attendant facility in proper condition for the reasonably safe conduct of the Tenant's use and operations, comparable to standard uses of similar airports.

6. The Tenant shall have the right to erect boundary lights, obstruction lights and BBT lights or similar flood lights upon any portion of the airport, provided, however, that before doing

so, the Tenant shall first submit to the Owner plans and specifications therefor and obtain the approval of the Board of Public Works thereon, and the work of erecting said equipment shall also be subject to the approval of said Board. Said equipment to be operated and maintained by the Tenant.

7. The Tenant shall have the right to install and maintain upon the airport and the leased premises such radio installation equipment and fixtures as the lessee may from time to time find necessary for the safe control of operation of its aircraft, it being the understanding of the parties that the lessee shall not install upon the airport any poles or other fixtures in locations to render hazardous the operation of aircraft to and from the said airport. All of the above to be to the approval of the Board of Public Works as to installation, operation and maintenance.

8. The Owner grants and gives to the Tenant the right and option to be exercised at any time during the term of this lease or any renewal thereof, to construct upon the said airport as hereinafter provided, such building or buildings and aviation facilities as the Tenant may require for the operation and development of its air transport business and in connection therewith and for the purpose of constructing the same thereon, to have and to hold as part of the leased premises herein, a plot or parcel of land upon the said airport of dimensions 200' x 300' approximately, and at a location upon the said airport suitable and convenient for the Tenant's said operations and to be agreed upon by the parties hereto. That before any hangar or other building is erected upon the said plot or parcel of land, the plans and specifications therefor and the location thereof must first be approved by the Board of Public Works of the City of Indianapolis, and the work of erecting and constructing such hangar or other building shall at all times be subject to the approval of said Board.

And the parties hereto agree that upon the approval by the said Board of Public Works of the plans and specifications covering the construction and location of the first of any building or buildings proposed to be erected by the Tenant as herein provided, the term of this lease shall be construed thereby to have been extended for a period or term ending twenty (20) years from the date of this lease, with an option to renew the same for a further period or term of ten (10) years as provided in Paragraph 2 of this lease. But unless the Tenant shall have within the term and/or extension of this lease sub-

stantially completed upon the said plot or parcel of land, a hangar or other building pursuant to plans and specifications approved by the said Board of Public Works, then the Owner reserves the right to cancel and terminate the option above referred to as fully and to the same extent as if the same had not been provided herein.

9. The Tenant shall not be liable to the Owner for the use of said airport and landing field and the facilities thereof, for any sums or amounts except as specifically or expressly stated herein.

10. The Owner covenants and agrees that if it makes any arrangements by lease or otherwise with any competitor of the Company for the use of its airport or facilities during the term of this lease on more favorable terms than those accorded the Tenant herein, such terms shall be offered to Tenant upon its request.

11. The Tenant agrees to take good care of any and all premises exclusively occupied by it under the terms of this lease and upon the surrender thereof to deliver the same to the Owner in substantially the same condition as when received, ordinary wear and tear, damage by the elements or acts of God excepted.

12. In the event that the air mail activities in which the Tenant is engaged, or is to become engaged, be terminated, removed or transferred by Federal action, the Tenant shall have the right to cancel this lease and the term hereby granted, at any time, by giving the Owner sixty (60) days notice in writing.

13. In the event that the airport and/or landing field and/or facilities thereof are damaged or destroyed in whole or in part by fire, earthquake or other act of the elements or any causes not attributable to the Tenant, so as to prevent, interrupt or interfere with the conduct of the Tenant's business, the Owner agrees, to the best of its ability and the extent of its facilities to repair and restore the same at its expense, without delay. During the period of such repair or restoration work, a proportionate reduction shall be made in the amounts payable to the Owner by the Tenant for the use of said airport and its facilities, including the Owner's hangar and administration building, based upon the duration and extent of such interruption or interference with the conduct of the Tenant's business. If the Owner neglects or fails to proceed promptly with the

repair or restoration work aforesaid, the Tenant may treat this lease as breached by the Owner, and upon sixty (60) days notice in writing to the Owner, cancel the same in whole or in part.

14. Any notice required to be given hereunder by the Tenant to the Owner shall be sufficient if given to the Executive Secretary of the Board of Public Works of the City of Indianapolis, at his office in the City Hall.

15. The Tenant further agrees to indemnify and hold harmless said City of Indianapolis from any and all claims for damages growing out of the use and occupancy of said premises by said Tenant, without contributory negligence on the part of the Owner, and to pay any judgment, and costs, that may on that account be rendered against said City, and also to pay all necessary expenses that may be incurred by said City in defending against any such claims.

THIS LEASE shall not be in force and effect until the same has been approved by the Common Council of the City of Indianapolis.

IN WITNESS WHEREOF, the parties hereto have set their hands this 8th day of August, 1932.

the City of Indianapolis, Indiana.*

Gentlemen:

I have this day the honor of submitting to your honorable body pursuant to the statutes of the State of Indiana, the proposed budget of all of the departments of government of the City of Indianapolis for the year 1933, together with the proposed tax levies of the general fund and each separate fund, and also the budget of the estimated receipts from the special street fund to be derived from gasoline tax, auto licenses, etc., hereinafter called gasoline fund, all of which is hereto attached and which has been transmitted by and with the recommendation of the Honorable William L. Elder, City Controller, as required by law.

In these unprecedeted times of financial distress we realize that any tax is a burden and yet we are fully cognizant of the fact that government cannot be maintained without money and that without government there will be chaos. We have therefore endeavored to make a budget which in our judgment will enable the city to function and yet we have reduced salaries, eliminated unnecessary employment, curtailed the amount of work to be done by some departments, and generally reduced appropriations for supplies and equipment.

There is no question concerning the necessity of a reduction of salaries but there is a serious question as to the amount of said reduction. The recent special session of the Indiana Legislature passed a salary reduction bill which provided a scale of reduction averaging less than 10% cut and included a general provision which required pay rolls to be reduced 10% below those of 1931. The reduction in payrolls recommended in the budget for 1933 produce a cut of approximately 15% off the 1931 expenditures. This has been accomplished by a reduction in pay, the elimination of positions, and the transfer to the gasoline tax fund of a part of certain activities.

Some citizens of this community advocate the abolition of certain departments during these times of stress. Careful consideration was given their arguments but we feel that all departments have a place in the plan for city government and all departments have been continued although some have been curtailed.

Other citizens have earnestly recommended reductions in pay which are so great that in our opinion the evil resulting therefrom would be much greater than the benefit derived from a lower tax.

In the preparation of this budget and tax rate we were confronted with unusual conditions. The assessed valuation of property in Indianapolis as verified by the Auditor in 1932 was reduced from \$676,580,430.00 to \$554,757,667.00 or a loss of \$121,822,763.00. Last year delinquent taxes were estimated at 2% while this year the estimate is 6%. One cent on the tax rate will now produce \$52,000.00 while last year one cent brought in \$66,000.00. Receipts from miscellaneous sources have decreased. Fixed and certain charges, over which we have no control, have increased approximately \$480,000.00 over last year. These charges are a primary and election to be held in 1933, an increase of \$257,000.00 in bond and interest requirements, and the return to the budget of certain utility charges hereinafter set out. This made necessary an increase in the tax levy. In order that we might reduce this increase to a minimum and still function we have cut off from items in last year's budget of the General Fund, Parks, Recreation, Health and Sanitation \$737,000.00. In addition we have reduced next year expenditures for water and light \$133,000.00 as the result of our contest before the Public Service Commission and in the Federal Court. We have also omitted the thoroughfare tax of one-half cent saving \$26,000.00.

The total budget last year called for \$8,021,616.94.

The total budget this year calls for \$7,466,533.73.

The amount to be raised by taxes in last year's budget was \$7,161,605.32.

The amount to be raised by taxes in this year's budget is \$6,877,216.58.

The amount to be raised by taxes next year on this year's budget is \$284,388.74 less than this year and in spite of the \$480,000.00 increase in fixed charges as before set out, a considerable part of which can be omitted in the budget for 1934.

While the rate of 1.319 recommended is 23.9 cents higher than last year's rate of 1.08 it will produce \$284,388.74 less in taxes. In other words the rate is higher but taxes have been lowered \$284,388.74.

The City received from the gasoline fund this year approximately \$208,000.00. Next year it is anticipated that the City will receive \$685,920.30. The gasoline tax is paid to the City by the State and is not derived from a tax upon Indianapolis property. Inasmuch as the latter figure includes gasoline collections from March 1, 1932, to December 31, 1933, it is not accurate and may be over-estimated and is speculative. It was not budgeted last year but in compliance with an act of the special session of the 1932 legislature it has been budgeted this year, but said gasoline tax budget is not included in the tax rate budget although both are in the same ordinance. In order that we might relieve the burden of taxation we have transferred from the general fund to the gasoline tax fund every item of expense which we are permitted by law and the State Board of Accounts to transfer. These transfers are \$23,774.61 from the Engineer's Office, \$31,883.00 from the Street Commissioner's Department, and \$50,150.00 from the Park Board, aggregating the sum of \$105,807.61 which is included in and a part of the budget reduction \$737,000.00 heretofore mentioned. We have also eliminated the Resurfacing levy of one-half cent and will do this work out of the gasoline money. That part of the City Street Improvement levy which pertains to streets and not to sewers in the sum of \$29,348.71, will be paid out of the gasoline fund. The balance of the gasoline fund remaining after the above expenditures and the continuance of the patching, repair and upkeep of streets as done now and for some years past will be used for resurfacing streets by contract. This should give employment to many men hired by contractors, put our streets in excellent condition and relieve to some extent the widespread distress caused by the present unemployment.

You are receiving a separate salary ordinance reducing pay for the balance of this year. The budget ordinance and the Act of the Legislature will not take effect until January 1, 1933. I earnestly recommend the passage of this ordinance. I further recommend that you call a special session of the council prior to September 10, 1932, amend said ordinance so that it will take effect September 11th, pass the same so that it will be presented to me for approval not later than September 10th, 1932. The ordinance is prepared upon the theory that you will act upon the same at your regular meeting September 19, 1932, but I recommend that you call a special meeting and put the salary cut in effect September 11th instead of September 26th, 1932.

You will also receive an ordinance providing that new appointees to the Fire and Police Departments be paid a salary of \$1,500.00 each

during the first year of their service. This will help financially next year, and it seems to be fair that during the first year's apprenticeship an inexperienced man should receive less than those who have become familiar with their duties. I recommend this ordinance for passage.

When the 1931 budget for 1932 was prepared the City was endeavoring to reduce the charges of the Indianapolis Power and Light Company and Indianapolis Water Company to the City for power, light and water. Said utilities declined to reduce their charges to the City and an amount was arbitrarily taken off the appropriation in the 1931 budget for the year 1932. Petitions were filed with the Public Service Commission asking for relief. Trials were had and relief granted, and one step in the Indianapolis Water Company case resulted in a victory in the Federal Court. After Litigation the reduction to the City in said utility charge was approximately \$133,000.00 per year. The reduction of \$133,000.00 was not as large as the amount arbitrarily deducted in last year's budget. The balance should be appropriated in order that the Board of Public Works may lawfully pay the utility bills for the balance of this year. For this purpose an ordinance has been sent to you.

Returning to the budget for the year 1933 herewith submitted I know that you will carefully scrutinize each item and use your best judgment upon the same. The services of the Controller's Office, Board Members and Department Heads are at your disposal. They have already signified their desire and willingness to appear before you and give you all information in their possession.

Respectfully,

R. H. SULLIVAN,
Mayor.

COMMUNICATIONS FROM CITY OFFICIALS

September 6, 1932.

*Hon. Reginald H. Sullivan, Mayor, and
the Members of the Common Council of
the City of Indianapolis, Indiana.*

Gentlemen:

In compliance with Section 10306, Burns Revised Statutes of 1926, I submit herewith the budget estimates for the year 1933. The various boards and departments operating under the General Fund presented their estimates of costs of operation for the coming year. These have been carefully gone over and substantial reductions made as shown by my allowances. The boards and department heads have cooperated with me in making large reductions over last year's budget.

The total 1933 appropriation that I recommend is \$7,466,533.73, however, the total appropriation for the General Fund is only \$4,309,383.98. The Gasoline Tax appropriation is not included in the above as it does not affect the tax rate.

We were confronted with an eighteen percent reduction in valuations, a large increase in anticipated tax delinquencies, a decrease in miscellaneous receipts, a large increase in certain necessary charges,

to-wit: the expenses of next year's City primary and election, increased demands upon the sinking fund obligations and an increase for utility appropriations due to an inadequate appropriation last year for this purpose made as a part of a campaign against two utilities for a reduction by them of City charges.

In spite of substantial reductions in salaries and wages, the elimination of personal, and the cutting of appropriations for supplies, it is necessary to raise the tax rate. However, the new rate of 1.319 will produce less money than the old rate of 1.08 and the amount of taxes paid under the new higher rate will be less than the taxes paid under the old and lower rate.

Below are the tax rates that I recommend for the various departments of this City.

Gentlemen:

Attached hereto are fourteen copies of General Ordinance No. 81, 1932, authorizing the Board of Public Safety through its duly authorized Purchasing Agent to purchase six Radio Cruising cars, which are to replace the old equipment now in use by the Police Department. These cars have been duly appraised by the City Appraisal Board and are being traded in on this new equipment for values in excess of the appraised value.

A committee consisting of Mr. Ropkey, president of the Common Council, Chief Morrissey of the Police Department and the writer

were appointed by the Board of Safety to investigate the sealed bids and the report of the committee was that three Fords, V8 and three Plymouths be purchased, which was the lowest and best bid submitted.

It is requested that this ordinance be passed in order to facilitate the operation of our Police Radio cars.

*To the Honorable President and Members
of the Common Council of the
City of Indianapolis.*

Gentlemen:

The Board of Sanitary Commissioners has been advised that General Ordinance 77 which is to be introduced at the special meeting of the Common Council today cannot specifically provide for the

various decreases in salaries and wages in the Sanitary District, which are to be put in effect for the other departments of the city government. The reason that these reductions cannot be made effective at this time by ordinance is that the present budget does not set out salaries and wages in the Sanitary District in sufficient detail to permit an amending ordinance to make the cuts effective.

In view of the foregoing, the Board of Sanitary Commissioners wishes to advise you officially that, as a result of conferences with Mayor Reginald H. Sullivan and with other department heads of the City, it is making identically the same cuts and reductions, on its own motion, in the Sanitary District which are to become effective throughout the other departments of the city.

We wish you to have this information in writing and ask that you make this communication a matter of record in your journal, so that it will be a matter of public knowledge that this board is acting in harmony with the policies which Mayor Sullivan and the Council have announced.

Respectfully yours,

O. C. ROSS,

President.

Vice President.

Attached please find copies of Appropriation Ordinance No. 15, 1932, appropriating the sum of Two Hundred (\$200.00) Dollars out of the anticipated unexpended and unappropriated balance of the general fund for the year 1932 to the Department of Public Safety, Dog Pound Fund No. 34, Institutional and Medical.

*Wm. L. Elder,
City Controller,
City of Indianapolis.*

Dear Sir:

In going over the Dog Pound budget we find it is necessary to ask that Fund No. 34—Institutional and Medical—be reimbursed again. This is the fund from which cleaning materials, disinfectants, medicines and chloroform for the destroying of dogs are purchased. We are holding bills which will overdraw the transfer made to this fund and, with four more full months in the year, it is absolutely necessary that the fund be reimbursed to properly operate.

We are, therefore, asking that an appropriation of Two Hundred (\$200.00) Dollars be made to this fund from the fees turned in to the general fund from the sale of dogs, and that the ordinance be presented to the council for their action at the earliest date possible.

Respectfully submitted,

BOARD OF PUBLIC SAFETY,

*Mr. Wm. L. Elder,
City Controller,*

Dear Sir:

The Board of Public Works respectfully requests that you cause to be prepared an ordinance appropriating the sum of \$143,033.54 from the anticipated, unexpended and unappropriated balance in the General Fund for the year 1932 into Board of Public Works—Administration No. 22.

The 1931 budget originally appropriated the sum of \$836,000.00 for this item. \$60,000.00 additional was appropriated therein, making a total of \$896,000.00 for the year 1931. The 1931 bills totalled the sum of \$873,806.23.

The 1932 budget contained the original appropriation of \$610,000.00. Plus the \$143,033.54 sought to be appropriated by this ordinance, the total is \$753,033.54, or a total saving under the 1931 figure of \$142,966.46.

Kindly present this to the Common Council at their special meeting, with the recommendation of the Board of Public Works that the same be passed.

Yours very truly,

ERNEST F. FRICK,
Secretary, Board of Public Works.

Mr. Wheatley asked for a recess. The motion was made and seconded by Mr. Henry, and the Council recessed at 1:00 p. m.

INTRODUCTION OF GENERAL ORDINANCES

By City Controller:

GENERAL ORDINANCE NO. 77, 1932

AN ORDINANCE concerning the salaries, wages and compensation of all officers and employees of the City of Indianapolis, Indiana, during the balance of the year 1932, supplementing and suspending all general and appropriation ordinances in conflict herewith, and fixing a time when the same shall take effect.

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS, INDIANA:

Section 1. That, beginning on September 26, 1932, and continuing through December 31, 1932, all salaries, wages and compensation, earned within said period, of all officers and employees of the City of Indianapolis, Indiana, as heretofore established by General Ordinance No. 72, 1931, and by Appropriation Ordinance No. 18, 1931; or by any other ordinance of said city; or by any executive order of any board, commission, department and/or governing body of any department, or official of said city, effective on or before the first day of January, 1932, shall be reduced and paid as follows:

(1) All salaries ranging from \$1,000.00 to \$1,200.00 per annum, inclusive, shall be reduced in an amount equivalent to 5% of such unearned and unpaid salaries.

(2) All salaries exceeding \$1,200.00 and up to \$1,500.00 per annum, inclusive, shall be reduced in an amount equivalent to 7½ % of such unearned and unpaid salaries.

(3) All salaries exceeding \$1,500.00 and up to \$3,600.00 per annum, inclusive, shall be reduced in an amount equivalent to 10% of such unearned and unpaid salaries.

(4) All unearned and unpaid salaries exceeding said sum of \$3,600.00 per annum shall be reduced and apportioned in an amount equivalent to the percentage of reduction determined by application of the salary reduction formula herein contained, which is substantially as set forth in Section 2 of an Act of the General Assembly of the State of Indiana, entitled "An Act Concerning the Salaries, Wages and Compensation of Public Officers and Employees," approved August 18, 1932, and known as House Bill 748, which formula with its scale of reductions is hereby adopted as herein modified, and is as follows:

(a) The salary of any such officer or employee as fixed on or before January 1, 1932, and remaining effective on such date, or as first fixed at any date thereafter, shall be referred to as "salary basis."

(b) The salary fixed as provided for herein shall be referred to as "new annual salary basis."

(c) The purpose of the mathematical computation herein provided for shall be (1st) to determine the percentage of factor to be used, and (2d) to determine and fix the "new annual salary basis."

(d) The manner of computing salaries shall be to divide the "salary basis" by 100, then multiply the quotient by .0025, then subtract the product from .99, then multiply the "salary basis" by the difference thus obtained. The result shall be the "new annual salary basis" for any such officer, upon which shall be computed the unearned and unpaid salary for the balance of the year 1932, payable on and after September 26, 1932, at the times salaries have been paid heretofore.

In determining the percentage of reduction under this ordinance, divide the "salary basis" by 100, then multiply the quotient by .0025, then to the product add .01, and the result will be the percentage of reduction for such unearned and unpaid salary for the remainder of the year 1932.

An illustration of the percentage of reduction thus provided, taking a "salary basis" of \$7,500 as an example: 7500 divided by 100 equals 75.00, multiply by .0025 equals .1875, .1875 plus .01 equals .1975. Thus a salary of \$7,500 shall be reduced in an amount equivalent to 19.75%, upon each installment paid hereunder.

Section 2. That on or immediately after the date when this ordinance shall take effect, it shall be the duty of every board, commission, department and/or governing body of any department, or official of said city to effect, by executive order or otherwise, a reduction in all compensation and wage scales paid by the hour, day or week, or otherwise than on an annual salary basis, to any person in the employ of the City of Indianapolis, as temporary or regular employees, under the authority or direction of such board, commission, department and/or governing body of any department, or official, of said city, in an amount in his or their discretion, but not less than 10% of the wage scale paid for such work on or before the first day

of January, 1932, except where controlled by existing contracts, and such boards, commissions, departments and/or governing bodies of any departments, or officials, are hereby ordered, mandated and instructed to effect such reductions upon or soon after the date upon which this ordinance shall take effect; all such reductions to be completed and to become effective for the first pay period beginning on or after September 26, 1932.

Section 3. The provisions of this ordinance shall not be construed to apply to the salary of any officer or employee whose regular salary, as such salary was being paid on January 1, 1932, shall have been reduced at or prior to the time of the taking effect of this ordinance in any amount at least equal to the percentage by which such salary would otherwise have been reduced under the provisions of this ordinance; provided, that this section shall not apply to those employees controlled by Section 2 hereof.

Section 4. The term "salary" as used in this ordinance shall be construed to mean salaries, wages and/or compensation paid any person for the performance of personal services and paid from public funds, whether such salary, wages and/or compensation be fixed by law or by any board, commission, department and/or governing body of any department, or official of said city authorized to fix salaries, wages, and/or compensation of any officers or employees. Allowances for expenses and compensation in lieu of salaries authorized by any statute or ordinance to be paid to any officer or employee, shall not be considered in determining the compensation on which the percentage provided for herein shall be applied. Provided, however: that no salary fixed by statute shall be affected hereby unless the person entitled thereto shall voluntarily waive the same in writing and agree to be controlled hereby; and provided further: that no salary, wages and/or compensation earned and unpaid prior to the 26th day of September, 1932, although paid thereafter, shall be affected by this ordinance.

Section 5. This ordinance hereby adopts and incorporates by reference thereto all prior ordinances and/or executive orders, fixing any salaries, wages and/or compensation, as herein defined or referred to, and is intended to be supplementary thereto, except that all parts of any thereof in conflict with any of the provisions of this ordinance are hereby suspended and shall so continue to be suspended until this ordinance expires by limitation.

Section 6. This ordinance shall be in full force and effect from and after its passage and approval by the Mayor, and shall expire

by limitation at midnight of December 31, 1932, whereupon all ordinances and executive orders, or parts thereof which may be in any way suspended or affected by this ordinance shall be revived and remain henceforth in full force and effect as they would have been if this ordinance had not been passed; except as any thereof may be further affected by the ordinance establishing the city's annual budget for the fiscal year 1933, effective on January 1, 1933.

Which was read the first time and referred to the Committee on Finance.

September 19, 1932.

To the Honorable President and Members of the Common Council of the City of Indianapolis, Indiana.

Gentlemen:

In the preparation of the current budget we were desirous of transferring to the Special Street Fund, to be derived from gasoline tax, auto licenses, etc., any and all items of expense heretofore included in the General Fund, which we could legally do so far as said Gasoline Tax Fund permitted. We discussed the legality of transferring the expenses of the Street Cleaning Department to the Gasoline Tax Fund, but were advised that said transfer was illegal.

We have late this afternoon obtained final authorization from the State Board of Accounts advising us that Item 11-4, Street Sanitation Division, under Department of Public Works, Street Commissioners, and Item 12-4, Division of Street Sanitation, under Department of Public Works, Street Commissioners, can be legally transferred to the Special Street Fund.

Said items are as follows:

11-4—Department of Public Works, Street Commissioner, Street Sanitation Division:

Assistant Commissioner Street Sanitation ..	\$ 1,800.00
Inspectors	6,937.50
Inspectors, Center district	1,500.00
Total	\$10,237.50

12-4—Department of Public Works, Street Commissioner, Street Sanitation Division:

Laborers	\$57,600.00
Sweeper men	1,908.00
Flusher men	7,920.00
Helpers	6,188.00
Trucks	12,600.00
Dump men	624.00
<hr/>	
Total	\$86,840.00

We recommend that said total of \$97,077.50 be transferred from the items in the General Fund, as above indicated, to the Special Street Fund, and that said Special Street Fund, as set out in the budget, under:

2. SERVICES—CONTRACTUAL

26. For resurfacing and/or widening and/or constructing streets and bridges.....\$200,000.00

be amended to read:

2. SERVICES—CONTRACTUAL

26. For resurfacing and/or widening and/or constructing streets and bridges.....\$102,922.50

and that all totals as set out in said budget be amended to conform with the above changes, and that other necessary amendments be made.

We further recommend that the tax rate of \$.75 for General Fund be amended to read \$.731 and that the total tax rate of \$1.319 be amended to read \$1.30.

Respectfully,

R. H. SULLIVAN,
Mayor.

September 19, 1932.

To the Honorable President and Members of the Common Council of the City of Indianapolis, Indiana.

Gentlemen:

In General Ordinance No. 82, 1932, containing the budget and tax levies for the year 1933, as introduced in the Common Council on September 6, 1932, I have noted and been advised of several errors in figures and one item that was inadvertently omitted in copying said ordinance from the recommendations submitted by the Department of Public Works, and I have directed the Legal Department to prepare proper amendments covering all these corrections and the addition of the omitted item to be submitted to your body for proper adoption.

The particular items, reference being made to the pages and lines of said General Ordinance 82 as it appears in the printed copy thereof published in proceedings of the special meeting of the Common Council held on September 6, 1932, are as follows:

1 To amend Section 2 of said ordinance in the budget of the Department of Public Works—Civil Engineer—after line 1 on page 481, to insert an item inadvertently omitted but which is included in the total of said item, the omission being:

“Junior Field Aids—4 @ \$1140.00 \$3420.00.”

2 To correct the erroneous total of Item 11-4 in Section 2, Department of Public Works—Civil Engineer, in line 26, page 481, to read: “\$7615.50.

3 To correct the erroneous grand total in Section 4, Board of Public Health, line 19, page 509, to read: “\$674,751.92.”

4 To correct Section 4 in Item 541, line 25, page 515, in the budget of the Department of Public Parks, to make the erroneous item of “\$50.00” read “\$250.00,” which was the correct figure submitted in the recommendation of said board and included in the total of Item 54, on said page.

5 To correct the erroneous figures in Section 4 in the budget of Sanitary District “Grand Total,” line 14, page 521, by changing said figures to read: “\$435,734.75.”

So far as any of the foregoing changes involve apparent increases in any items of the budget ordinance aforesaid, I hereby approve the same and recommend that the Common Council adopt them.

Yours very truly,

R. H. SULLIVAN,
Mayor.

Please prepare an ordinance transferring One Thousand (\$1,000.00) Dollars from the Fire Department budget—Fund No. 41—Building—and reappropriate same to Fund No. 26—Other Contractual—Fire Department, for the purpose of installing a new heating plant in Engine House No. 17, Madison Avenue and Morris Street.

It was the original plan to purchase the necessary materials for the heating plant and the work to be done by the Fire Department. However, recently bids were received for this work and we find the contract can be let out, perhaps to better advantage.

*Mayor Reginald H. Sullivan and
Members of the Indianapolis City Council,
City Hall.*

Gentlemen:

We hope that you agree with us, that the time for the menacing blinding headlights on automobiles is soon to be a thing of the past. They not only cause innumerable disasters, but they make night driving an absolutely nerve wrecking, tiresome thing. Good lights and good brakes are the most essential requisites for safe driving. Of the two, good lights are the most important, because without proper lights one cannot see when to apply the brakes.

You men hold within your hands the power to make our streets safe for our citizens and to make night driving a real pleasure. Have it said, that within your regime, more was done for the safety and comfort of Indianapolis citizens than in any other heretofore. Pass an ordinance requiring each and every motorist to equip his car with non-glare lights and you will have done more good for our people in one stroke, than has ever been done before.

Which one of you enjoys meeting with blinding lights while driving your car or even while walking? Bright lights ruin ones eyes and with aching eyes, who can be happy? They also ruin ones nerves and disposition and make him say things which are better unsaid. Everyone agrees that the time is ripe for something to be done that will clear our streets of improper lights and make them safe for the motorist and for the pedestrian alike.

Twice in the past the lenses on our cars have had to be changed in an effort to lessen the glare of the headlights, which effected little toward relief. Now, that there is on the market a non-glare bulb, which really works—let us have it by all means. This bulb installed correctly, absolutely eliminates all glare and at the same time in-

creases ones road light seventy-five percent. There is no lost light up in the air and in the other man's eyes. Also, as the season of rain, snow, smoke and fog is upon us, it is more than ever important that we have proper lights on our cars.

The non-glare lights are always polite. Let us make Indianapolis a polite City.

Upon you Mr. Mayor and Members of the Indianapolis City Council we are depending to give this matter your undivided attention and trusting that you will act favorably upon it.

Sincerely yours,

MRS. FREDERICK H. DAY
3938 Broadway
Indianapolis, Indiana.

Mr. Morgan asked for a recess. The motion was made and seconded by Mr. Houck, and the Council recessed at 7:37 p. m.

Dear Sir:

With reference to General Ordinance No. 83, creating clerk's rank in the Fire Department, we kindly ask that either a separate ordinance, or an amendment to the transfer ordinance introduced at the last meeting of the Common Council, be submitted transferring Three Hundred Forty-nine Dollars and Thirty-five Cents (\$349.35)

from Fire Department Salary Fund No. 11—First Grade Privates and reappropriate same to Fund No. 11—Second Grade Substitutes, to meet the change in salary from October 8th to and including December 31, 1932.

Respectfully submitted,

BOARD OF PUBLIC SAFETY,

Dear Sir:

The Board of Safety has approved a request of Thomas Haefling, Superintendent of the Gamewell Division, for the transfer of Six Hundred (\$600.00) Dollars in the Gamewell Budget for the purchase of rectifiers for the police and fire alarm system. Therefore, we kindly ask that you prepare an ordinance transferring Six Hundred (\$600.00) Dollars from Fund No. 38—General Supplies, and reappropriate this to Fund No. 72—Equipment—Gamewell Division, presenting same to the Common Council, recommending its passage.

Respectfully submitted,

BOARD OF PUBLIC SAFETY,

/s/ WALTER O. LEWIS,

Executive Secretary.

October 25, 1932.

*Wm. L. Elder,
City Controller,
City of Indianapolis.*

Dear Sir:

The Fire Department has found that the \$1,000.00 which we asked transferred, under date of October 18th, from Fund No. 41—Building, to Fund No. 26—Other Contractual—Fire Department Budget, should remain in that fund as bills are out against the fund

and it would be overdrawn should that amount be transferred. Also, since receiving the bids for the installation of the heating plant at Engine House No. 17, find that \$600.00 transferred to Fund No. 26 will be sufficient to complete the installation of the heating plant. We are, therefore, asking that an amendment be prepared to the ordinance and in place of transferring \$1,000.00 from Fund No. 41—transfer in its place \$600.00 from Fund No. 72—Equipment, and reappropriate same to Fund No. 26—Other Contractual, Fire Department Budget.

Very truly yours,

BOARD OF PUBLIC SAFETY,

/s/ WALTER O. LEWIS,

Executive Secretary.

October 1, 1932.

*Hon. President and Members of the

Executive Secretary.

October 25, 1932.

*Wm. L. Elder,
City Controller,
City of Indianapolis.*

Dear Sir:

General Ordinance 83 which established ranks and officers of the Police Department, made a transfer of funds necessary in the Police Department Budget to meet the salary changes. An ordinance requesting the transfers was introduced at the last meeting of the Common Council and the amounts requested transferred covered the salary changes from October 26th to and including December 31st, 1932. However, we now learn that General Ordinance No. 83 was signed by the Mayor on October 7th and became effective October 8th, thereby making it necessary to transfer additional amounts, and we are asking that the ordinance be amended transferring the following amounts instead of those requested in the original ordinance:

Transfer:

Five Hundred Sixty-four Dollars and Forty Cents
(\$564.40) from Mayor's salary to Captains' salary,

Five Hundred Twenty-two Dollars and Seventy-five
Cents (\$522.75) from Accident Prevention Lieutenant's
salary to Sergeants' salary,

Four Hundred Thirty-eight Dollars and Sixty Cents
(\$438.60) from Patrolmen First Grade salary to Sergeants'
salary,

One Thousand Two Hundred Ninety-two Dollars
(\$1292.00) from Matrons' salary to Patrolmen Third Grade
salary,

Eight Hundred Fifty-one Dollars and Seventy Cents (\$851.70) from Policewomen's salary to Patrolmen Fourth Grade salary,

One Thousand Eight Hundred Sixty-three Dollars and Twenty Cents (\$1863.20) from Policewomen's salary to Patrolmen Fifth Grade salary.

COMMUNICATIONS FROM CITY OFFICIALS

November 21, 1932.

*To the Honorable President and Members of the Common Council of
the City of Indianapolis, Indiana.*

Gentlemen:

Attached please find copy of a letter from Mayor Reginald H. Sullivan recommending the expenditure of the sum of Two Hundred and Sixteen (\$216.00) Dollars from the Mayor's Contingent Fund, being Item No. 26 in the City Controller's budget, for payment of supplies rendered by the K. L. M. Process Company as indicated in said letter.

I hereby approve the proposed expenditure from funds now on hand therefor, and attach herewith a proper resolution to be adopted by the Common Council authorizing the proposed expenditure, and I recommend the passage of this resolution under suspension of the rules, so that the money may be available for immediate payment.

Very truly yours,

WM. L. ELDER,
City Controller

November 21, 1932.

*Honorable William L. Elder,
City Controller,
Indianapolis, Indiana.*

Dear Sir:

During the year 1931 the City, acting through its Mayor and heads of some of its departments, decided to cooperate with the Indianapolis Chamber of Commerce and several other civic and philanthropic organizations of the city in compiling certain census tracts pertaining to the City of Indianapolis. These census tracts were designed to contain certain valuable information pertaining to the various phases of the city government and the public welfare of its citizens, including, among other things, information pertaining to health conditions in the various sections of the city. It was agreed at the time by responsible officials of the city and others interested in the preparation of the above mentioned tracts that the city would bear the expense of the supplies necessary for preparing the said tracts and the other cooperating agencies would bear the expense of gathering and compiling the information. The information was compiled and the tracts printed, and a sufficient number of them furnished to the city.

The cost of the necessary supplies for the publication of the above mentioned tracts was \$216.00, represented by two invoices from the K. L. M. Process Company of New York, one for \$25.00 covering paper and the other for \$191.00 covering paper, binders and stamping of books. Duly verified copies of invoices for these supplies have been presented to the City of Indianapolis and demand made for payment.

No specific provision was made for the payment of the obligation, and I have determined that a contingency has arisen requiring the expenditure of the sum of \$216.00 for the payment of said two invoices from the fund known as "Reserve for Contingencies" listed as "Other Contractual" under No. 26 in the budget of the Department of Finance for the year 1932. I am informed that all other bills have been paid by the Chamber of Commerce and other agencies.

I hereby request that you give your approval to such expenditure, provided sufficient funds are on hand therefor, and that you notify the Common Council in writing of your approval thereof.

Very truly yours,

R. H. SULLIVAN,
Mayor.

1. Space in the administration building of the Owner at its Municipal Airport. This space to be determined upon from time to time by the Operations and Traffic Departments of the Tenant, as found necessary by the Tenant to carry on its operations, except as hereinafter limited.
2. Space in the hangar of the Owner at its said Municipal Airport. This space to be determined upon from time to time by the Operations Department of the Tenant, as it may find necessary for their operations.
3. The non-exclusive right to use the flying field and its facilities at said Municipal Airport for any and all purposes incident to the transportation by air of passengers, mail, express or other cargo.
4. The non-exclusive use of all roadways, alleyways, passageways, etc., necessary for ingress and egress between the public highways and to and from the flying field and all its facilities, and to and from the hangar and other quarters used or occupied by the Tenant.
5. The right of the Tenant to use at the Airport its own trucks, tractors, and other vehicles for the purpose of moving and servicing its own airplanes and incidental purposes, and to install, maintain and operate gasoline and/or oil storage tanks and servicing equipment.

All of said property so demised and leased and permitted shall be used and occupied by the Tenant, subject, however, to all rules and regulations governing said Municipal Airport now in force or which may hereafter be adopted by said CITY OF INDIANAPOLIS, includ-

ing the right of the owner to modify said space and change the location thereof, and the decision of said Owner shall be final and without appeal; such space presently used is shown on attached blue print.

Paragraph Two. TO HAVE AND TO HOLD said demised premises, subject to the agreements, conditions, covenants and terms herein contained and subject also to all rules and regulations governing said airport now in force or which may hereinafter be adopted by said CITY OF INDIANAPOLIS, for and during the whole term of ten (10) years from date, and in the event Tenant shall erect a hangar as provided in Paragraph 7 hereof, then in that event this lease shall be for a period of twenty (20) years from date, with an option to renew the same for ten (10) years additional by Tenant, unless sooner terminated as herein provided, at the rentals hereinafter set forth, all of said rentals to be accounted for monthly and to be paid at the office of the City Controller of the CITY OF INDIANAPOLIS in the City Hall, on or before the 10th day of the month immediately following the month for which they are charged. Upon the erection of such hangar, the Tenant may cancel its lease for office and hangar space.

Paragraph Three. IT IS MUTUALLY COVENANTED and agreed between the parties hereto that this agreement is made upon the foregoing and upon the following agreements, conditions, covenants and terms, to-wit:

1. The Owner guarantees and represents that it owns, with power to lease, the Municipal Airport situated in Indianapolis, Indiana (as shown on Schedule "A"), consisting of approximately nine hundred and forty-seven (947) acres, and containing the property herein described.

2. If the Owner shall not have the power to execute this lease for the term herein provided, or of any extension of such term, then this lease shall not thereby be void, but shall be deemed to be for a term from year to year, or for such other fixed period as shall be legal, and this clause shall thereupon supersede any other term of years herein prescribed.

3. That in the event the Tenant shall need additional space either in the administration building or hangars of the Owner for the conducting of its operations, the Owner agrees to supply the same on demand, if any such space be available, at the same rental per square foot as herein provided.

4. The Tenant shall pay to the Owner the following rentals:
 - (a) One Dollar (\$1.00) per square foot per annum for the number of square feet to be used or occupied by the Tenant in the administration building of the Owner situated on said airport.

The number of square feet so occupied or used in the shop of the Owner situated on said airport to be limited to four hundred (400) square feet.
 - (d) Five Dollars (\$5.00) per night for each tri-motored airplane stored by the Tenant in the Owner's hangar, but in no event to exceed Seventy-five Dollars (\$75.00) for any one airplane per month; single engine Three Dollars (\$3.00) per night, but in no event to exceed Fifty Dollars (\$50.00) maximum for any one such airplane per month.
 - (e) As additional rental for the rights and privileges in the lease provided, the Tenant will pay to the Owner Two Cents (\$0.02) per gallon on the first 5,000 gallons of gasoline sold, used or delivered in each month by the Tenant to its own or its subsidiary companies' aircraft at said airport; One and one-half Cents (\$0.01½) per gallon on the next additional 5,000 gallons of gasoline or fraction thereof so sold, used, or delivered in each month; and One Cent (\$0.01) per gallon on the excess above 10,000 gallons of gasoline so sold, used or delivered in each month; such charge to be not less for any calendar month than a minimum of One Hundred Dollars (\$100.00).

Provided, that Owner may elect to charge, in lieu of the foregoing basis for the additional rental hereinabove provided, and the Tenant agrees to pay upon notice to it in writing of the exercise of such option by the Owner, as such additional rental hereunder the sum of One Hundred Dollars (\$100.00) per month minimum charge for months

during which the number of scheduled landings of Tenant's airplanes at said airport shall be six (6) or fewer scheduled landings. In the event that there are more than six (6) scheduled landings daily and fewer than twelve (12) scheduled landings daily, the price for the first five (5) additional landings shall be Fifteen Dollars (\$15.00) for each additional scheduled landing per month, and One Hundred and Seventy-five Dollars (\$175.00) per month for twelve (12) scheduled landings daily; provided, however, in the event there are more than twelve (12) scheduled landings daily, the price for each additional scheduled landing in excess of twelve (12) scheduled landings daily shall be Ten Dollars (\$10.00) for each scheduled landing, per month.

5. The Owner covenants and agrees to maintain, at all times, the airport landing field and each and every attendant facility in proper condition for the reasonably safe conduct of the Tenant's use and operations, comparable to standard uses of similar airports.

6. The Tenant shall have the right to erect boundary lights, obstruction lights and BBT lights or similar flood lights upon any portion of the airport, provided, however, that before doing so, the Tenant shall first submit to the Owner plans and specifications therefor and obtain the approval of the Board of Public Works thereon, and the work of erecting said equipment shall also be subject to the approval of said Board. Said equipment to be operated and maintained by the Tenant.

7. The Tenant shall have the right to install and maintain upon the airport and the leases premises such radio installation equipment and fixtures as the lessee may from time to time find necessary for the safe control of operation of its aircraft, it being the understanding of the parties that the lessee shall not install upon the airport any poles or other fixtures in locations to render hazardous the operation of aircraft to and from the said airport. All of the above to be to the approval of the Board of Public Works as to installation, operation and maintenance.

8. The Owner grants and gives to the Tenant the right and option to be exercised at any time during the term of this lease or any renewal thereof, to construct upon the said airport as hereinafter provided, such building or buildings and aviation facilities as the Tenant may require for the operation and development of its air transport business and in connection therewith and for the purpose

of constructing the same thereon, to have and to hold as part of the leased premises herein, a plot or parcel of land upon the said airport of dimensions 200 feet by 300 feet approximately, and at a location upon the said airport suitable and convenient for the Tenant's said operations and to be agreed upon by the parties hereto. That before any hangar or other building is erected upon the said plot or parcel of land, the plans and specifications therefor and the location thereof must first be approved by the Board of Public Works of the City of Indianapolis, and the work of erecting and constructing such hangar or other building shall at all times be subject to the approval of said Board.

And the parties hereto agree that upon the approval by the said Board of Public Works of the plans and specifications covering the construction and location of the first of any building or buildings proposed to be erected by the Tenant as herein provided, the term of this lease shall be construed thereby to have been extended for a period or term ending twenty (20) years from the date of this lease, with an option to renew the same for a further period or term of ten (10) years as provided in Paragraph 2 of this lease. But unless the Tenant shall have within the term and/or extension of this lease substantially completed upon the said plot or parcel of land, a hangar or other building pursuant to plans and specifications approved by the said Board of Public Works, then the Owner reserves the right to cancel and terminate the option above referred to as fully and to the same extent as if the same had not been provided herein.

9. The Tenant shall not be liable to the Owner for the use of said airport and landing field and the facilities thereof, for any sums or amounts except as specifically or expressly stated herein.

10. The Owner covenants and agrees that if it makes any arrangements by lease or otherwise with any competitor of the Company for the use of its airport or facilities during the term of this lease on more favorable terms than those accorded the Tenant herein, such terms shall be offered to Tenant upon its request.

11. The Tenant agrees to take good care of any and all premises exclusively occupied by it under the terms of this lease and upon the surrender thereof to deliver the same to the Owner in substantially the same condition as when received, ordinary wear and tear, damage by the elements or acts of God excepted.

12. In the event that the air mail activities in which the Tenant is engaged, or is to become engaged, be terminated, removed or transferred by Federal action, the Tenant shall have the right to cancel this lease and the term hereby granted, at any time, by giving the Owner sixty (60) days notice in writing.

13. In the event that the airport and/or landing field and/or facilities thereof are damaged or destroyed in whole or in part by fire, earthquake or other act of the elements or any causes not attributable to the Tenant, so as to prevent, interrupt or interfere with the conduct of the Tenant's business, the Owner agrees, to the best of its ability and the extent of its facilities to repair and restore the same at its expense, without delay. During the period of such repair or restoration work, a proportionate reduction shall be made in the amounts payable to the Owner by the Tenant for the use of said airport and its facilities, including the Owner's hangar and administration building, based upon the duration and extent of such interruption or interference with the conduct of the Tenant's business. If the Owner neglects or fails to proceed promptly with the repair or restoration work aforesaid, the Tenant may treat this lease as breached by the Owner, and upon sixty (60) days notice in writing to the Owner, cancel the same in whole or in part.

14. Any notice required to be given hereunder by the Tenant to the Owner shall be sufficient if given to the Executive Secretary of the Board of Public Works of the City of Indianapolis, at his office in the City Hall.

15. The Tenant further agrees to indemnify and hold harmless said City of Indianapolis from any and all claims for damages growing out of the use and occupancy of said premises by said Tenant, without contributory negligence on the part of the Owner, and to pay any judgment, and costs, that may on that account be rendered against said City, and also to pay all necessary expenses that may be incurred by said City in defending against any such claims.

16. The execution and delivery hereof shall operate as a cancellation in all respects of the lease, dated August 31, 1931, between the parties hereto, so that the same shall be null and void and of no further force and effect.

THIS LEASE shall not be in force and effect until the same has been approved by the Common Council of the City of Indianapolis.

WHEREAS, the present staff of the legal department of the City of Indianapolis cannot give the necessary time and attention to such work aforesaid, because of the constant pressure of a large amount of other city business, and by reason of all the premises it is deemed necessary that additional special counsel be furnished by the common council to assist and act under the supervision of said legal department in protecting the city's interests and carrying out promptly and properly the provisions of said duties under all of said statutes;

NOW, THEREFORE,

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS, INDIANA:
